

40th
ANNIVERSARY
PRO CIRCUIT™
1978 2018

WE RACE

2018 marks the 40th anniversary for Pro Circuit Products, Inc. In that time a lot has changed, yet one thing remains the same: We aren't happy unless our customers are happy.

We went from a small laundromat-turned-Husqvarna shop with 1 employee to our current multi-building motocross empire in Southern California with over a hundred employees. We have seen two-stroke motorcycles rule the sport to now seeing four-strokes rule the sport, riding spots come and go and we've watched some eight hour days at the shop turn into all-nighters. No matter what we have faced, we believe the hard work we put into our products and services is all worthwhile when we hear praise from our customers.

We have built pipes, tuned suspension and modified engines for legendary riders such as Rick Johnson, Jeff Ward, Damon Bradshaw, Jeremy McGrath, Ricky Carmichael, Kevin Windham, James Stewart, Ryan Villopoto and current stars like Eli Tomac, Chad Reed and Cooper Webb. Whether a product is for a factory guy or a recreational rider, we make sure both receive our 100% effort in giving them a product that is above the rest.

As we begin to click our 40th year in gear, we would like to thank our customers and riders for the memories and support throughout the years and for being the reason we continue to put in the time we do to make your rides more enjoyable.

Cheers to the next 40 years!

Hey, we don't call 'em Works motors for nothin'

CASUAL WEAR

- COMPANY TEES, HOODIES AND JACKETS
- RACE TEAM TEES, HOODIES AND JACKETS
- HEADWEAR

The Pro Circuit apparel line offers bold designs that will definitely stand out in a crowd. We feel our customers should look good on and off the track, which is why we deliver several different eye-catching shirts for both men and women along with sweatshirts and headwear styles. Whether you choose one of our company tees or a collaboration tee with Monster Energy, all designs are printed or embroidered on top-quality garments for a product that not only looks and feels great, but will hold up after years of washing. For men's attire, we offer items ranging in sizes from small to xx-large, and small to large in women's sizes.

Pro Circuit headwear continues with trendy fitted or adjustable hats with quality embroidered artwork, supplying any Pro Circuit fan a race-day-ready accessory to complete their look.

The 2018 Monster Energy/Pro Circuit/Kawasaki race team line will have you looking like one of the crew on race day and shows you support a winning team. Choose from our simple 3-logo Team design, or go all-out with our Team Full Logo design. Race team apparel is available in several styles including long and short sleeve tees, hoodies, hats and jackets in all the popular sizes.

ACCESSORIES

- PROMOTIONAL ACCESSORIES
- BIKE ACCESSORIES
- TEAM GRAPHIC KIT

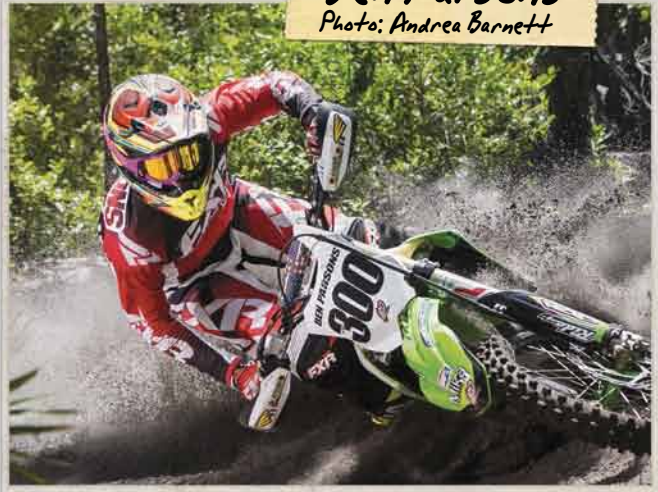

Pro Circuit's line of performance accessories offer a special way to make your bike stand out at the track. It's about adding a little style and performance to your machine. After all, it's your bike, so why not personalize it your way? Here at Pro Circuit we go the extra step, because every accessory we make enhances either the way your bike runs, handles and/or looks. From our Launch Control Device to our Carbon Fiber Chain Guide, every accessory offers more than what an OEM component can offer. For Kawasaki riders, our popular Monster Energy/Pro Circuit/Kawasaki team graphic kit is back again for 2018 and is available for KX85, KX250F and KX450F models. The team kit is manufactured by N-Style and includes heavy-duty clear vinyl sticker pieces with a self-adhesive backing for easy application.

The Pro Circuit accessory line doesn't stop there. We also carry a line of promotional accessories like backpacks, pit boards, bike stands and sticker sheets to have you looking great on-the-go or in the pits. We are proud to offer quality accessories with the Pro Circuit name because we know you only want the best!

SHADOW CARRY-ON

HELMET CASE II

TRAVELER III

HYDRO PACK

BAG COLLECTION MONSTER ENERGY/PRO CIRCUIT

- Pro Circuit teamed up with OGIO to create a line of bags that have just what you need for all of your traveling and moto needs. Our unique line consisting of a carry-on, helmet case, gear bag and a hydration pack will be sure to add some style wherever you go.

SHADOW CARRY-ON 21.3" H x 14" W x 9" D

\$189.95

TRAVELER III 34" H x 16.5" W x 15.25" D

\$299.95

HELMET CASE II 16.75" H x 11.25" W x 13.5" D

\$119.95

HYDRO PACK 14" H x 7" W x 2" D

\$72.95

RUCK SACK

\$25.00

- A military-inspired canvas ruck sack that is perfect for the track, school or even a hike. A strong cotton canvas with Pro Circuit logos.

LUGGAGE TAG

\$6.95

- Carry the Pro Circuit brand with you wherever you travel and make it easy to identify your bag.

RACE UMBRELLA

\$32.95

- This umbrella features a manual open and close system, nylon shell with Pro Circuit logos. Grab yourself some shade at the track!

LANYARD

\$5.00

- The Pro Circuit lanyard is perfect for keeping your keys, school or gym pass near you at all times.

TEAM MECHANIX WEAR VENT GLOVE

\$24.95

- These Mechanix Wear gloves take on a look inspired by our race team and give your hands the protection and ventilation they need.

RACE TEAM APRON

\$29.95

- The Race Team Apron allows for quick access to tools and parts placed in various pockets.

LICENSE PLATE FRAMES

FROM \$9.95

- Get rid of those boring car dealership license plate frames and show the world you race with the best.

HITCH COVER

\$12.95

- Battle traffic in style and show everyone behind you why you're leading the pack. Fits all class 3 hitch receivers.

MOUSE PAD

\$7.99

- Stylize your office desk with the Pro Circuit Mouse Pad. It will have you roosting on the internet in no time.

PIT BOARDS

\$44.95 (EACH)

- Our Pit Boards are stylish, durable and make it easy to relay information to your rider during his/her moto. Marker included.

Ceramic Mug

Stainless Mug

COFFEE MUGS

FROM \$7.95

- Our coffee mugs are perfect for those early mornings at the track.

PIT RUG

\$189.95

- Our Pit Rug is designed to give your pit setup the factory look. It absorbs water and oils, is fire resistant and washable.

Original Logo Banner

#1 Plates Race Banner

VINYL BANNERS

FROM \$21.95

- Pro Circuit vinyl banners are a great addition to any garage or race track. Original Logo Banner is 90"x23" and #1 Banner is 94.5"x23".

DELUXE LOGO SHEET

\$19.95

- The Deluxe Logo Sheet is 13"x19.5" and includes 26 stickers.

ORIGINAL LOGO SHEET

\$12.95

- The Original Logo Sheet is 13.25"x10.25" and contains 16 stickers.

ORIGINAL LOGO VAN DECAL

\$9.95

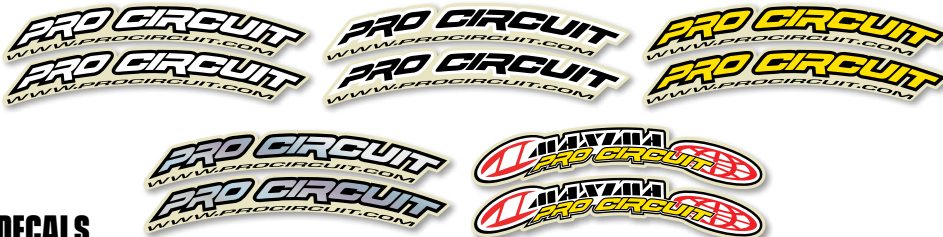

- Perfect for any van or truck back window. Decal size 36"x9".

TAPE MEASURE

\$3.00

- Features a 39" retractable metal tape with inch and metric measurements, perfect for checking sag.

FRONT FENDER DECALS

\$11.95 (PAIR)

- Pro Circuit Front Fender Decals are sold in pairs and are available for mini and standard size bikes in white, black, yellow and hologram colorways. We also offer a Maxima Oils fender decal for mini and standard size bikes as well.

REAR BRAKE CLEVIS

\$54.95

- Constructed of billet aluminum and designed to eliminate the free-play on the OEM brake pedal setup.

BRAKE HOSE CLAMP

\$44.95

- The Brake Hose Clamp firmly holds the brake line in place and is more durable than the OEM clamp.

RAPTOR TITANIUM FOOTPEGS

\$349.95

- Raptor Titanium Footpegs create the perfect grip to help enhance your racing performance.

NIPPLE JAWS SPOKE WRENCH HANDLE

\$14.95 (EACH)
\$16.95

- Jaw sizes available: 5.1, 5.7, 6.0, 6.1, 6.3, 6.4, 6.6, 6.7 and 6.9.

AXLE BLOCKS

FROM \$34.95

- Made from billet aluminum, Axle Blocks allow for precise wheel alignment. Axle block colors vary from brown, red to raw aluminum.

HOT START CONNECTOR

\$29.95

- Available for all Keihin FCR carburetors, this CNC-machined, aluminum fitment eliminates the hot start from sticking.

SHIFT LEVER

SELECT XR/CRF/KXF MODELS

\$99.95

- This shift lever is designed to prevent dirt from clogging and interfering with the shift lever functionality.

BRAKE SNAKE KIT

\$16.95

- This kit is easy to install and cheap when compared to the price of a new brake pedal. All necessary hardware included.

THERMOSTRIPS

\$22.95

- Monitor the running temperature of your engine, shock or radiators with ease. Three strips per pack.

EXHAUST PLUG

FOUR-STROKE

\$8.95

- An essential item when washing your bike, this plug prevents water and mud from leaking into your exhaust system.

PIPE SPRING PULLER

\$5.00

- Our Pipe Spring Puller is constructed from quality metal for durability and is designed to easily remove or install pipe springs on your two-stroke or four-stroke exhaust.

WATER PUMP KIT

FROM \$189.95

- CNC-machined from billet aluminum, color anodized and designed to increase the performance of your cooling system.

MATRIX BIKE STAND

\$112.95

- This stand is constructed from a blend of polycarbonate plastics and designed with anti-flex supports to help promote strength.

HEAT SHIELDS GOLD OR SILVER FILM

FROM \$49.95

- Heat shields adhere to the bottom of the gas tank to reduce operating temperatures for better performance. Films measure 27"x24" and require some cutting to fit your gas tank.

IGNITION COVERS AND CLUTCH COVERS

FROM \$169.95

- Our Billet ignition & clutch covers increase strength, improve wear resistance and increase performance. Ignition covers available for Kawasaki models only.

COUNTER SHAFT COVER KX80/85/100

\$99.95

- Bolts over the aluminum case saver to add a factory look and offer additional protection. For the KX80/85/100 ignition cover.

MATRIX TOOL BOX

\$121.95

- Strong, but lightweight, this tool box is made from a high-impact plastic/metal combination for durability.

WORKS BIKE STANDS MINI AND STANDARD

FROM \$104.95

- Works Bike Stands feature a non-slip rubber top and are built from extruded aluminum for durability and lightweight. Side panels sold separately.

THROTTLE TUBES TWO-STROKE & FOUR-STROKE FROM \$59.95

- CNC-machined out of aluminum and Teflon coated on the inside to reduce friction which give you a smoother twist of the throttle.

LEVERS BRAKE & CLUTCH FROM \$19.95

- Made from forged 6061 aluminum for strength and durability. These levers are designed to fit the stock perches.

CROSSBAR PADS MINI, STANDARD AND FATBAR \$19.95 (EACH)

- Crossbar Pads feature high-density foam and a black vinyl wrap with the iconic Pro Circuit logo in a metallic silver.

LAUNCH CONTROL DEVICE \$109.95

- Designed to enhance traction during starts and prevent wheelies. Available for most makes and models.

ENGINE PLUG KIT FROM \$69.95

- Each piece is CNC-machined from aircraft-grade aluminum, and anodized red. Kits may come with less or more pieces than shown.

BANJO BOLTS \$49.95

- Banjo Bolts can be fastened onto the front and rear brake master cylinders, and front and rear brake calipers.

FUEL MIXTURE SCREW \$29.95

- Designed to make quick and easy Keihin carburetor adjustments, while the knob is easy to grab and adjust.

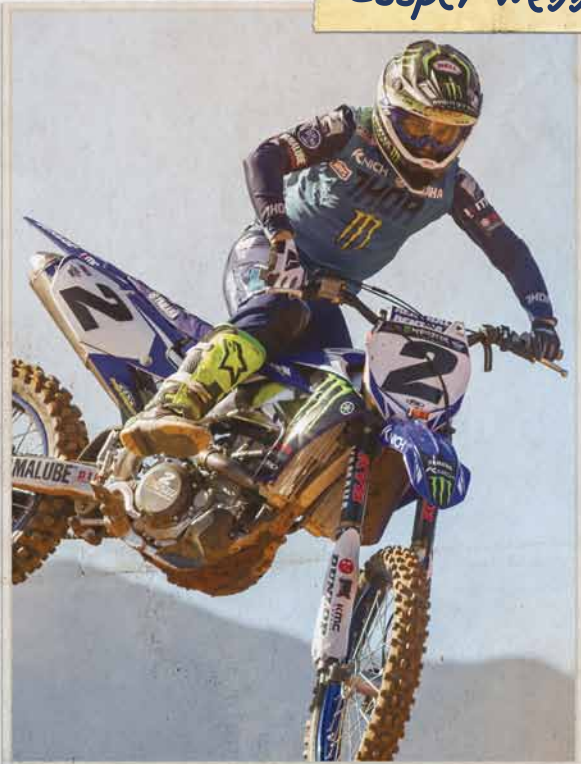

CARBON FIBER CHAIN GUIDE KX250F/450F \$299.95

- The carbon fiber bracket extends farther towards the rear wheel providing a precise feed of the chain to the rear sprocket.

KAWASAKI KX250F 2017-2018

\$124.95

KAWASAKI KX450F 2016-2018

\$124.95

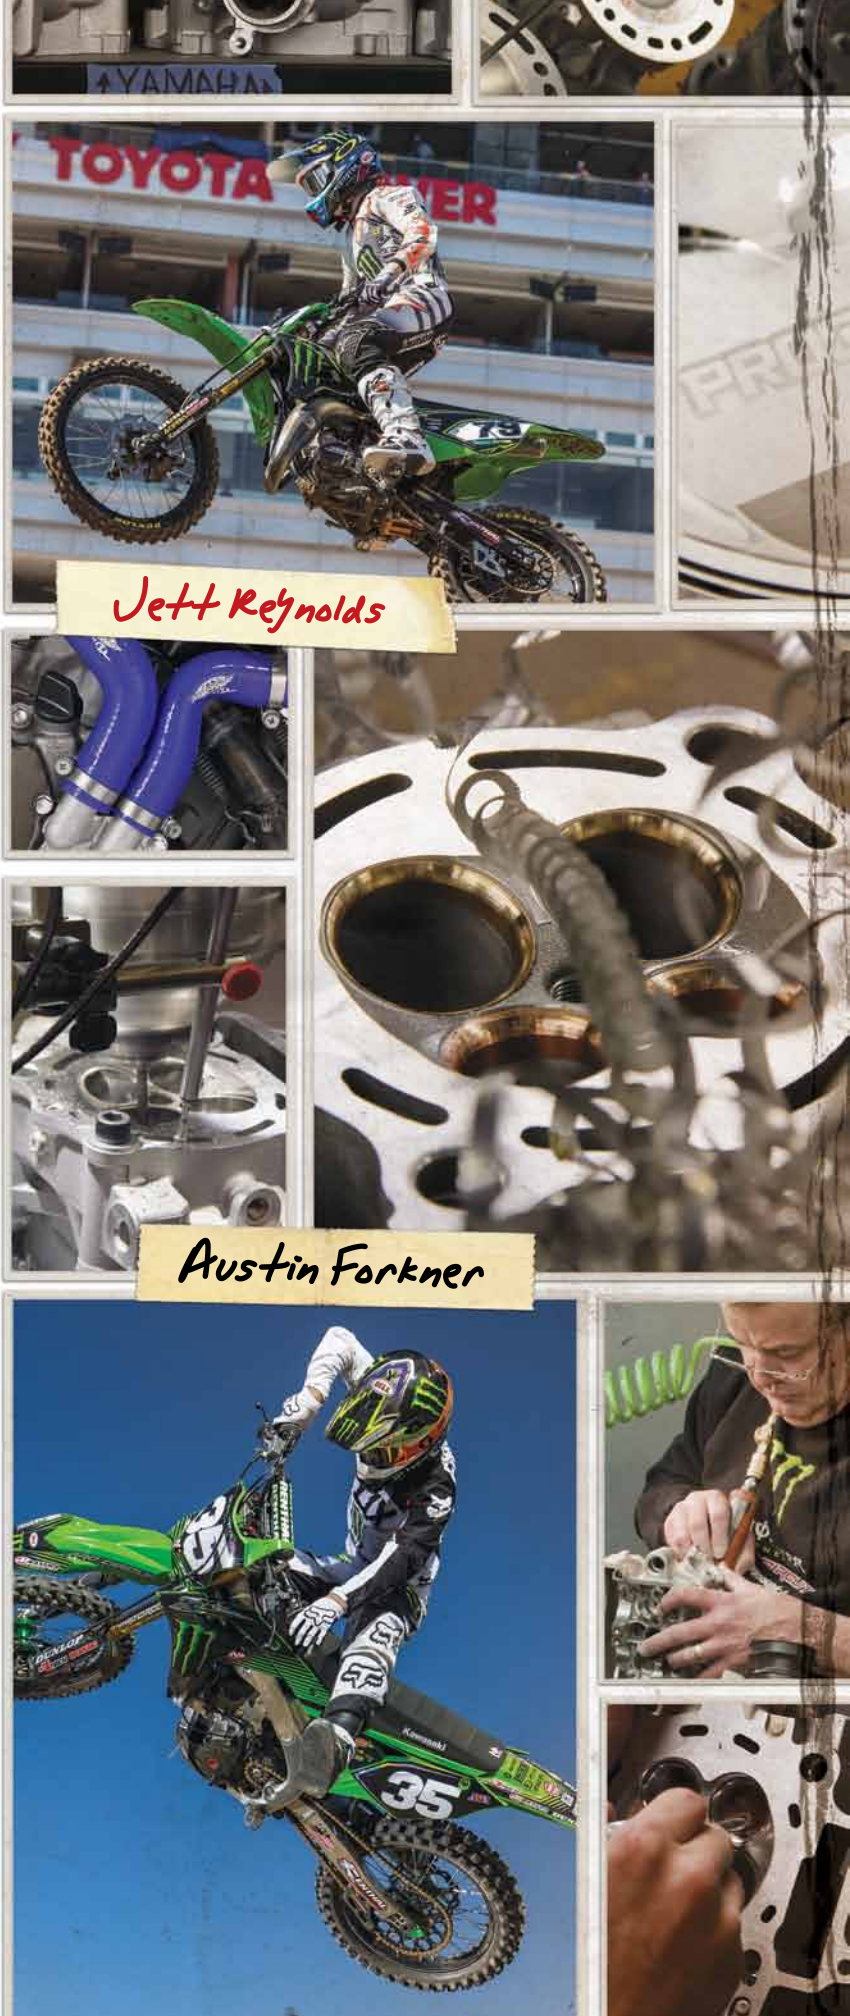

ENGINE SERVICES

- 2-STROKE AND 4-STROKE SERVICES
- MINI ENGINE SERVICES
- ENGINE PERFORMANCE PARTS

For other tuners, building an engine that is reliable while still creating usable horsepower can be difficult. Thankfully for our customers, we have more than three decades of building and tuning performance engines that help riders stay on the track and win races. We devote hours to track and dyno testing looking for ways to add more winning performance into every engine that shows up at our shop. We take pride in building some of the fastest and most dependable racing engines in the world for two-stroke and four-stroke race bikes.

Full-sized race engines aren't the only engines you will find on our service benches. It's no secret Pro Circuit has been a long-time supporter of mini riders. Ricky Carmichael, Ryan Villopoto and Adam Cianciarulo came through the amateur ranks using Pro Circuit products on their race bikes. Our supermini engines are in high demand for amateur events and any Honda, Kawasaki, KTM, Suzuki or Yamaha mini engine will benefit from one of our engine modifications.

In addition to our legendary engine tuning, we also offer a line of high-performance engine components such as camshafts, titanium valves, high-compression pistons and more that not only add performance but can increase the life of your engine.

Austin Forkner

TWO-STROKE ENGINE MODIFICATIONS AND SERVICES*

HEAD AND CYLINDER MODIFICATIONS	FROM \$349.95
CARBURETOR SERVICE	FROM \$39.95
BORE AND HONE STEEL CYLINDER	FROM \$89.95
REMOVE AND REPLACE POWER VALVE	FROM \$74.95

FOUR-STROKE ENGINE MODIFICATIONS AND SERVICES*

HEAD MODIFICATIONS (PORT AND POLISH)	FROM \$549.95
CNC-MACHINED HEAD MODIFICATIONS	FROM \$649.95
REMOVE AND REPLACE HEAD/CYLINDER	FROM \$359.95
CRANKSHAFT REBUILD	FROM \$99.95
RECUT VALVE SEATS	FROM \$39.95 (PER SEAT)

*Listed above are only a few services/modifications Pro Circuit offers. Please call for more details.

MINI ENGINE MODIFICATIONS

SHORT CARBURETOR	FROM \$249.95
-------------------------	---------------

- Modification will increase throttle response, increase power from bottom-to-top with more over rev and choke removal.

CARBURETOR BORING	FROM \$124.95
--------------------------	---------------

- Having your carburetor bored will improve mid-to-top power and is available for the KX85/100 and CRF150R models only.

ADJUSTABLE POWER VALVE KTM 65 SX	\$164.95
---	----------

- Adjustable Power Valve allows the tuner to adjust the horsepower curve. You can also use the pre-set setting that it comes with.

SUPERMINI ENGINE BUILDS

CR85R, KX85 AND YZ85 SUPERMINI	FROM \$1,999.95**
KX100 SUPERMINI	FROM \$2,249.95**
KTM 85 SUPERMINI	FROM \$2,195.00**
RM85 SUPERMINI	FROM \$2,035.00**

**Above pricing is based on a new engine supplied to Pro Circuit. Cost varies depending on engine supplied by customer.

VALVE SEATS COPPER BERYLLIUM

FROM \$129.95 (PER SEAT)

- Pro Circuit Copper Beryllium Valve Seats will not chip like the stock seats. They also help dissipate heat and increase the lifespan of your valves.

HIGH-COMPRESSION PISTON COATED PIN*

FROM \$359.95

- Pro Circuit pistons are forged from high-quality aerospace aluminum alloy, manufactured by JE Pistons using advanced CNC-machined technologies. Designed and engineered to Pro Circuit's exact specifications.

CLUTCH SPRINGS

FROM \$54.95

- Pro Circuit Clutch Springs are a must-have for any dirt bike, stock or modified. We designed our clutch springs to increase clutch life and reduce slipping.

VALVE SPRING KIT

FROM \$299.95

- Valve springs allow your engine to run at a higher rpm without the loss of valve control. Comes with retainers & keepers. Some models will also include spring seats.

TRANSMISSION REM ISOTROPIC FINISHING

FROM \$349.95

- REM Isotropic Finishing reduces friction, increases the lifespan of transmission parts, improves shifting and lowers operating temperatures.

Used by many factory teams.

CAMSHAFTS

FROM \$429.95

- Pro Circuit Camshafts are designed to provide superior performance over stock (HP/torque) by optimizing the valve lift profile. Used in conjunction with Pro Circuit valve springs should ensure a valve train free of dynamic bounce.

VALVE SPRINGS

FROM \$164.95

- Pro Circuit Valve Springs allow your engine to run at a higher rpm without loss of valve control. Depending on your bike, some of our valve springs will also include seats.

TITANIUM EXHAUST / INTAKE VALVES

FROM \$357.95

- Our valves are designed to increase performance and are thermal-nitride coated to reduce normal wear.

*Coated wrist pin on select models only.

WRIST PIN COATED

FROM \$109.95

- Designed to stand up to higher engine rpm and operating temperatures while also reducing friction.

COATED TAPPETS

\$459.95

- Designed to last longer than stock, reduce cam lobe and bucket wear and will prolong the life of your engine's cam.

RADIATOR HOSE KIT STANDARD

FROM \$68.95

- Standard Radiator Hose Kits replace the stock hoses and run at higher temperatures and pressures than other hoses.

RADIATOR HOSE KIT "Y" KIT

FROM \$199.95

- The "Y" Radiator Hose Kit is designed to eliminate the plastic "Y" elbows found in other radiator hoses.

TACH / HOUR METER

\$44.95

- Pro Circuit's Tach/Hour Meter keeps track of your engine's service life and works on any type of engine. No batteries required.

TWIN AIR FILTERS

FROM \$29.95

- Twin Air filters are designed to increase airflow while ensuring the highest level of protection from dirt and dust.

ENGINE PERFORMANCE PACKAGE 2017-2018 CRF450R / RX

\$1,170.00

- We have earned our reputation as a premier engine builder through hard work and commitment to only offer our customers the finest performance parts available. We continue that tradition with our new Performance Engine Package for the 2017-2018 CRF450R/RX. This package consists of our high-compression piston kit, camshaft and valve springs. Each part has been designed and tested to complement each other for significant engine performance gain at all RPM levels. Performance parts cannot be sold individually.

SUSPENSION SERVICES

- WORKS SHOWA SUSPENSION
- SUSPENSION STAGES
- PARTS & ACCESSORIES
- KTM & HUSQVARNA SUSPENSION
- MINI BIKE SUSPENSION

Pro Circuit has been custom tuning dirt bike suspension for more than 30 years. Whether you're a professional racing in the Supercross, motocross or off-road circuit or you're just a recreational rider, Pro Circuit can modify your forks and shock to fit your needs. Long-time Pro Circuit suspension technician, Jim "Bones" Bacon, and his crew of experts take pride in offering customers suspension tailored to their individual riding style, weight and type of riding they do. With knowledge gained from decades of testing, you can rest assured knowing that our specialists will create a suspension package that will best suit your riding program. If you want it done right and performance and quality are important to you, don't trust your suspension to anyone but Pro Circuit.

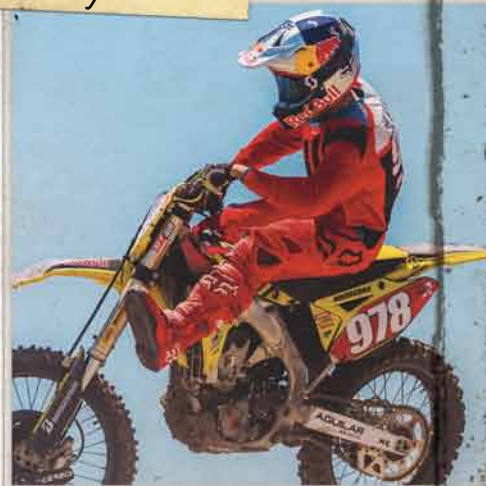

We offer three different stages to choose from to fit your budget. Simply send us your suspension and we will send it back to you set-up, ready to bolt-on and go riding. We tune Showa, KYB, WP and Ohlins applications.

To go with your newly tuned items, Pro Circuit also offers an array of accessories that make a difference in the way your bike handles. From linkage systems to triple clamps, most of these accessories are simple bolt-on parts you can easily install.

WORKS SHOWA DUAL SPRING FORKS FROM \$8,675.00*

Optional turquoise coating pictured.
(gold coating comes standard)

1. New for 2018, Showa's completely redesigned **Dual Spring Works Forks** are a works version of the forks found on the new 2018 CRF450R with the biggest compression piston ever (39mm) put in a dual spring fork. With this technology as well as experience gained, we have been able to exceed the performance of the SFF TAC Air Forks and add the tuning simplicity of the dual spring fork.

With the precision machined parts, state-of-the-art coatings, billet machined axle lugs and the large 49mm tubes, these new forks give a plush, yet controlled feel with more front end bite and traction than ever before.

2. Large 49mm inner tubes and all the precision machined internal parts, along with the outer tubes, have state of the art coatings applied to provide more durability and a smoother stroke.
3. Billet CNC-machined axle lugs provide the ultimate strength, control and precise steering.
4. Oversized 18mm shock shaft.
5. 50mm hard-anodized Kashima coated body has less friction and reduced heat build up.
6. The works Showa shock offers a more stable and controlled ride, also reducing operating temperatures.

*Pricing is for gold coating. Turquoise is higher-priced.

WORKS SHOWA SUSPENSION KX85 / 100 \$5,479.95**

- The Works Mini Showa Suspension for the 2014-2018 KX85/100 is designed after our race team suspension. It comes with race team style coatings, larger inner and outer fork tubes, shock body and shock shaft to maximize performance, resulting in a much more controlled stroke with better traction and cornering.

Making its motocross debut at the 2017 Mammoth Mountain Motocross, Team Green Riders like Jett Reynolds, Stilez Robertson and Ryder DiFrancesco achieved success on the new suspension by earning wins and podium finishes and that same technology is available to you.

**Additional parts like triple clamps and other accessories may be required.

Works Mini Showa Suspension is only available with turquoise coating.

STAGE 1 SHOCK / FORK OIL CHANGE AND SERVICE

FROM \$235.00*

- Complete disassembly of your shock and forks for cleaning and inspection of all internal parts. Replacement of worn parts if required** and complete reassembly using PC-01 & PC-02 suspension fluids. If necessary, springs will be updated with customer approval at an additional fee. All clickers and race sag will be pre-set to your riding weight and our recommended settings.

2018 RM-Z450 BFR Shock

2018 CRF250R Suspension

STAGE 2 SHOCK / FORK REVALVE AND SET-UP

FROM \$576.80*

- Includes all of the stage 1 modifications plus complete revalving of your shock and forks for your type of riding and ability level. This custom tuning and setup fine-tunes your bike's handling, and improves the overall balance and performance of your suspension.

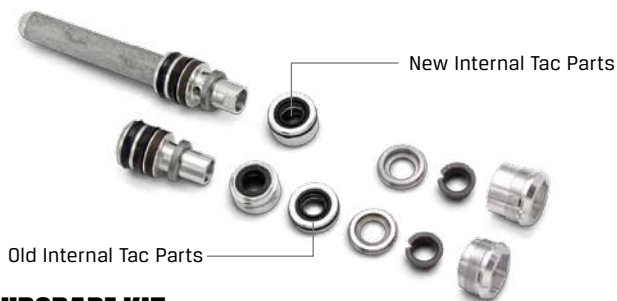

STAGE 3 SHOCK / FORK REVALVE AND SET-UP

PRICING VARIES ON OPTIONAL PARTS INSTALLED. CALL FOR PRICING.

- Includes all of the stage 1 and 2 modifications plus the option to install our works parts like: National Spring Tubes, Supercross Spring Seats, Works Bladder Caps, Works Shock Anodizing Kit and more. This modification is our top-of-the-line suspension setup and will benefit riders of any ability level.

*Springs/wear items not included. Parts pricing may vary. **Parts required may vary depending on condition of internal parts.

UPGRADE KIT SHOWA TAC

\$109.95

- For the '17 CRF250R, '15-17 KX450F and '15-18 RM-Z450 models, This upgrade offers a smoother stroke with a more consistent ride height, and a new seal design which offers better sealing and less stiction.

LINKAGE ARMS AND PULL RODS

\$224.95

- Linkage Arms and Pull Rods are designed to stiffen up the initial linkage curve and improve the geometry of the chassis, which improves stability.

DIGITAL GAUGE SFF AIR FORKS

\$209.95

- Our digital top-of-the-line high performance gauge for air forks are a must-have for any rider using the pneumatic spring forks (PSF). For Honda, Kawasaki and Suzuki air forks.

PC-03 AND PC-04 GREASE AND LUBE

\$12.95 (EACH)

- PC-03 Seal and O-ring Grease should be used on any seal or o-ring during assembly. PC-04 Assembly Lube is an all-purpose grease which provides great film strength.

SHOCK / FORK SPRINGS SFF FORK SPRING

FROM \$129.95

FROM \$64.95

- Replacement shock and fork springs are available for most Showa, KYB and WP equipped models.

TRIPLE CLAMP KIT

FROM \$549.95

- Triple Clamp Kits include a clear anodized top and bottom clamp with a black reversible bar mount that fits 1 1/8" handlebars only. Also available for the Kawasaki Supermini.

SUSPENSION FLUIDS

\$19.95

- The PC-01 and PC-02 suspension fluids withstand the rigorous demands of motocross and off-road racing.

WORKS BLADDER CAP KITS

FROM \$74.95

- Works Bladder Cap Kits will reduce shock fade by increasing the nitrogen volume. Includes bladder, cap and air valve. Color and shape vary depending on bike.

WP DUAL SPRING XPLOER FORKS AVAILABLE IN STAGE 1,2 AND 3

FROM \$235.00*

- Stock, these WP Dual Spring Xplor Forks have a very plush feel to them, but lack the capability of being able to make it progressive enough for the faster, more aggressive riders. The Pro Circuit kit changes the forks adjustability so each fork leg is capable of adjusting both compression and rebound control. These modifications, along with valving changes make these forks much more progressive while retaining a plush feel.

WP AIR FORKS AVAILABLE IN STAGE 1,2 AND 3

FROM \$235.00*

- The new WP Air Forks are triple chamber SFF air forks very similar to the TAC SFF Showa forks. Pro Circuit is experienced in dealing with these systems and tuning these forks to improve their performance.

AIR-TO-SPRING CONVERSION KIT WP AER 48 AIR FORK AND SHOWA TAC AIR FORK

\$659.95

- For the riders that want to get back some simplicity in their life and not have to mess with air pressures, we now offer a simple spring hybrid conversion cartridge that can be easily dropped into your WP AER 48 Air Fork or your Showa TAC Air Fork. The fork cap on this conversion kit comes with an air valve that can be used to make the fork a little more progressive through the stroke for the faster, more aggressive riders or can be run at zero pressure for the riders that don't want to mess with air. If you're at a mud race, a little air can also be added to help your forks hold up better against the extra weight given from mud collecting on your bike. For sand races, the spring preload can easily be adjusted without taking the fork all the way apart, letting the fork ride a little higher. This hybrid fork spring system is 100% made in the USA.

KIT AVAILABLE FOR:

- 2015-2017 Honda CRF250R
- 2015-2018 Kawasaki KX450F
- 2016 1/2-2018 KTM SX 125, 250/350/450 SX-F
- 2015-2017 Suzuki RM-Z450

*Pricing is based on our stage 1 service. Springs/wear items not included in price. Parts pricing may vary.

WP 36MM x 14MM SHOCK 50 / 65

WP 46MM x 18MM SHOCK 85

WP 50MM x 18MM SHOCK 250 / 350 / 450

- The new large reservoir WP shock comes with a floating piston in the reservoir to separate the nitrogen and oil. We install our bladder, high-volume bladder cap, and reservoir kit to increase volumes and make the shock a smoother, more seamless stroke. This, along with our personalized valving changes, really bring out the performance in this shock.

LINKAGE SYSTEM KTM AND HUSQVARNA

\$349.95

- The Linkage System for KTM 2015 1/2 through 2018 and Husqvarna 2016-2018 models causes the bike to have a feeling that is much too harsh and stagnant, whereas the preceding bike models had an OEM linkage system providing an unwanted lazy and soft feeling. The new Pro Circuit linkage system utilizes some of the mechanical advantages of both designs, which allows for the use of a more true-to-weight spring rate and to reach the ultimate sweet spot in handling.

SHOCK COLLAR UPGRADE KTM / HUSQVARNA / RMZ BFR \$58.95

- The problem with the OEM preload collar for the 2016-2018 KTM and Husqvarna models is its plastic composition. During use, it heats up and along with dirt working its way underneath becomes deformed, which makes tuning and adjustment extremely difficult. Pro Circuit's solution offers a CNC-machined 6061 aluminum preload collar with a zinc-plated steel lock ring for improved durability and much easier adjustments. Discard your OEM preload collar Pro Circuit's new preload collars.

FORK SYSTEM KTM 50 OR 65 SX / SXS 2012-2018

FROM \$295.00

- This new fork system installs inside the left OEM damper leg turning it into a closed-cartridge system to pressurize the oil. This results in a much improved and consistent damping without any cavitation.

LINKAGE ARM KTM

\$224.95

- Linkage Arms are available for 2011-2014 KTM 250/350/450 SX-F and 2012-2014 125/150/250 SX models to stiffen up the initial linkage curve and improve the geometry of the chassis, which improves stability.

KX85/100 Suspension

MINI MODIFICATIONS AND SERVICE HONDA/KTM/KAWASAKI/SUZUKI/YAMAHA

FORK OIL CHANGE & SERVICE	\$109.95*	FORK REVALVE & SETUP	\$194.95*	BLADDER CAP KIT	\$58.95

		SHOCK REVALVE & SETUP	\$164.95*	SHOCK BODY HARD ANODIZING	\$89.95
		SHOCK INTERNAL KIT (KX ONLY)	\$81.75		

- The Showa and KYB mini bike suspension is designed for a target skill level and weight. The problem that most riders run into is they start riding the bikes when they are very light and stop when they are much heavier and about to start on a 250F. Pro Circuit's experience in setting up mini bike suspension for riders that have experienced this transformation in weight, height and skill range from Ricky Carmichael to our current crop of riders. This experience enables us to match the exact spring rate, valving spec and performance parts to make your bike perform to your standards.

LINKAGE SYSTEM KX65 / 85 / 100

\$324.95 (EACH)

PULL RODS KX65 / 85 / 100 & RM65

FROM \$49.95

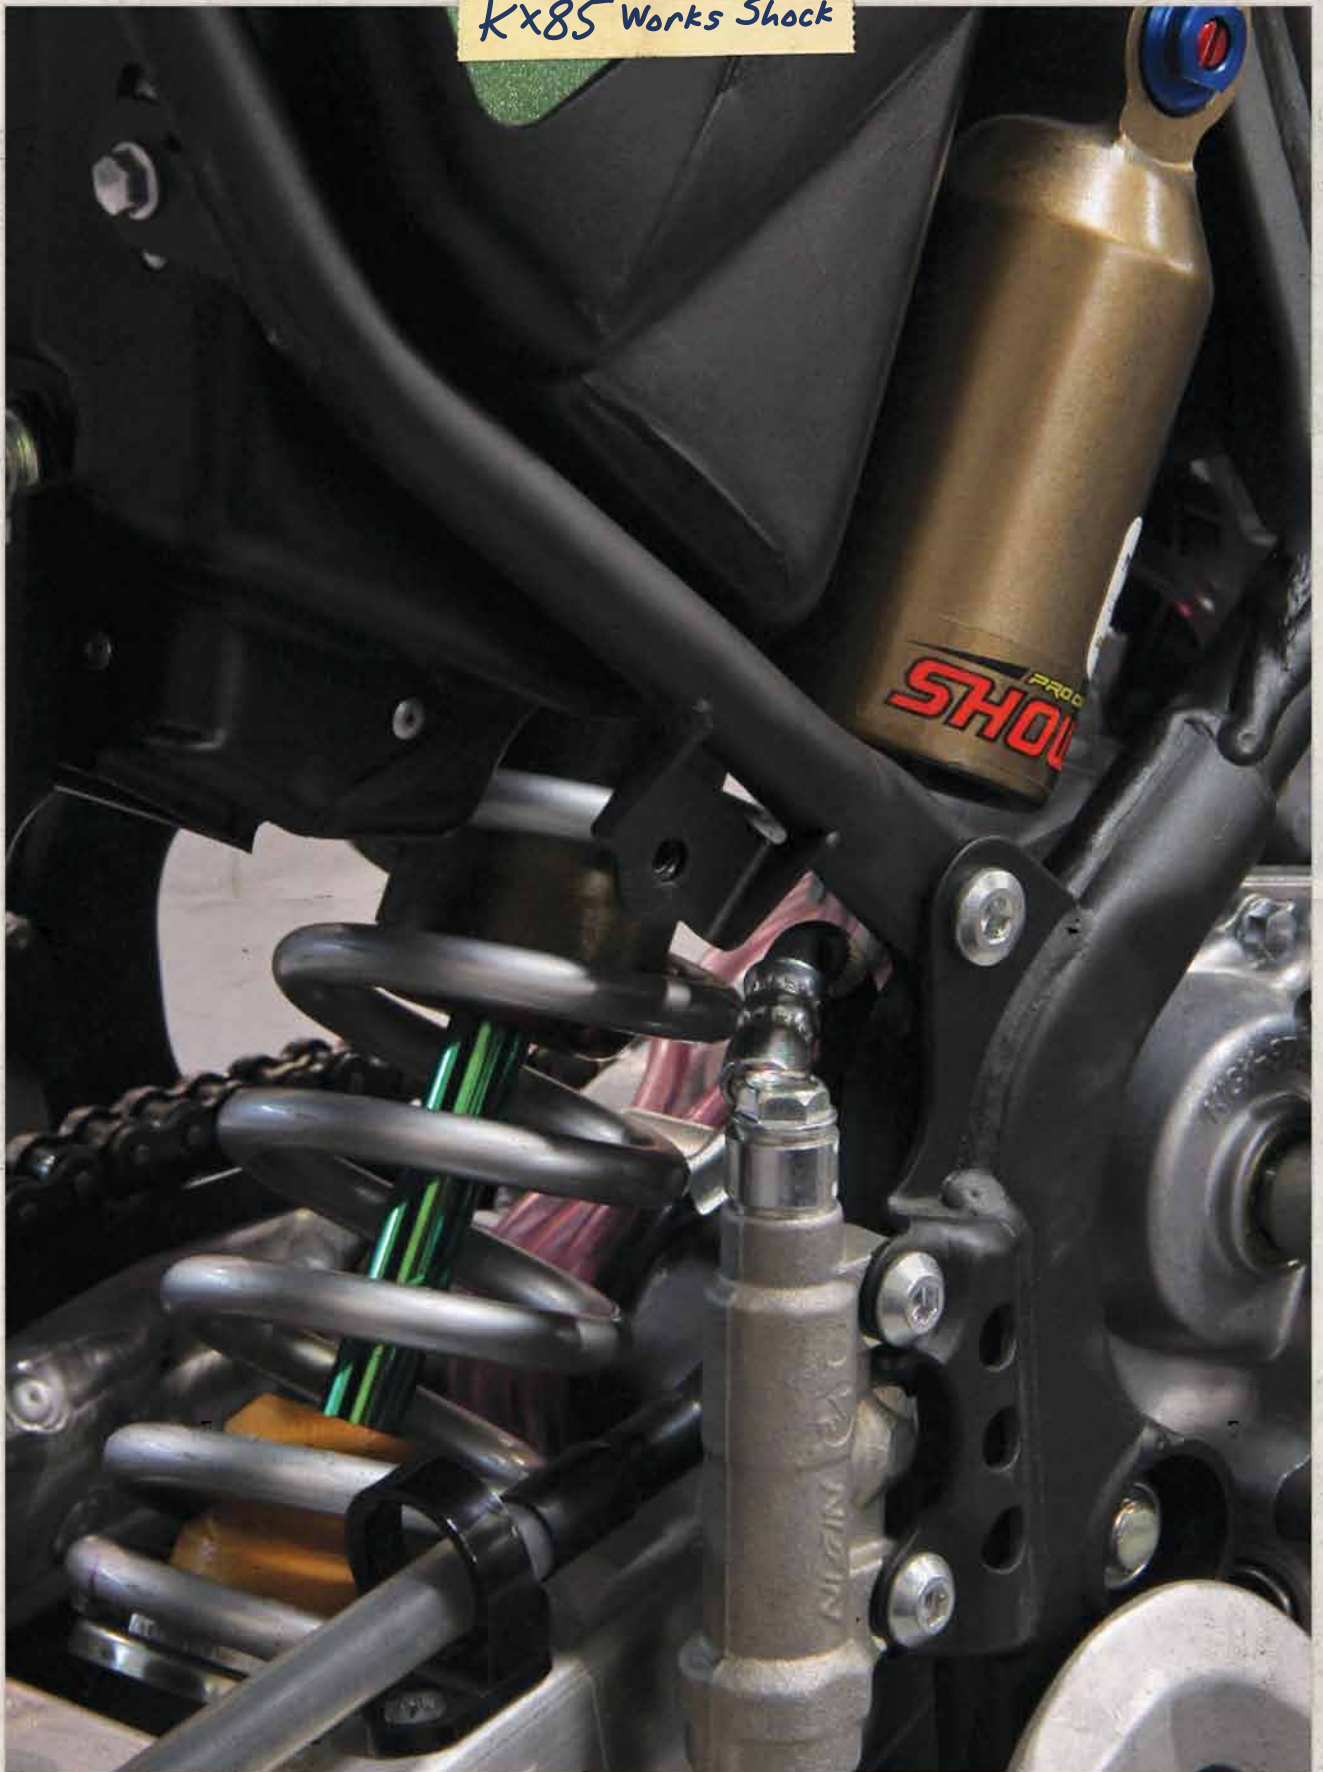

- The KX65/85/100 Linkage Systems improve handling, stability and include all of the required bearings, seals, knuckle and pull rods.

- Two Pull Rod versions are available for the KX85/100. One kit raises the chassis while the other kit lowers the chassis.

*Price listed is for labor only. Parts, springs and fluids not included.

4-STROKE EXHAUST

- TI-6 AND T-6 EXHAUST
- TI-5, T-5, TI-4 AND T-4 EXHAUST
- ATV/UTV EXHAUST

Four-strokes began to make their mark in Supercross and motocross back in the late 1990s and early 2000s. Prior to these thumpers lining up at the gate, Pro Circuit was already researching this new technology and finding exhaust solutions for the future machines of the sport. Since then, the bikes and exhaust systems have changed, but our process for creating championship-winning four-stroke exhaust has not. Research and development plays a critical role, along with testing our products with some of the fastest riders on the planet. Guys like Eli Tomac, Chad Reed and the riders on the Pro Circuit race team continue to help our exhaust systems progress so our customers can have the very best performance exhaust available on the market.

We offer four-stroke exhaust solutions for all types of riding, including professional and amateur racing, off-road and recreational use. Pro Circuit exhaust systems are available for all major bike brands including: Honda, Husqvarna, Kawasaki, KTM, Suzuki and Yamaha. Previous exhaust systems like our Ti-5, T-5, Ti-4 and T-4 are still available for riders with older models in need of a fresh new muffler or head pipe.

In addition to our dirt bike systems, we also stock four-stroke exhaust for ATVs and UTVs that carry the same legendary performance. The Yamaha Raptor 700R, Polaris RZR XP 900 and the Can-Am Maverick 1000 are a few models we offer an increase in performance for.

Intended for AMA/FIM
closed-course racing only.

Ti-6 PRO TITANIUM EXHAUST SYSTEM

FROM \$999.95

- Pro Circuit's Ti-6 Pro Titanium Exhaust System was created for professional racers competing in a series such as AMA Supercross or AMA Motocross to ensure they pass AMA/FIM sound regulations. The Ti-6 Pro is constructed of titanium throughout the head pipe, mid pipe and canister while the end-cap is constructed of carbon fiber. An RC-4 Resonance Chamber (select models) and a machined aluminum muffler bracket for durability are also added. Asymmetrical muffler configuration for higher packing volume and a machined mid pipe to head pipe joint for a better fit are other features. The Ti-6 Pro is the next generation of professional level race exhausts and is proudly made in the USA.

Ti-6 TITANIUM EXHAUST SYSTEM

FROM \$999.95

- The Ti-6 offers maximum performance and is constructed of titanium throughout the head pipe, mid pipe and canister while the end-cap is carbon fiber. The Ti-6 is perfect for any closed-course or off-road racer looking for improved performance, durability and a professional look. More features offered by the Ti-6 is the ability to meet AMA amateur racing sound requirements and that it comes equipped with a U.S.F.S. approved spark arrestor making it easy to alternate between off-road and closed-course racing. The Ti-6 also includes an RC-4 Resonance Chamber (select models) and a machined aluminum muffler bracket for durability. Asymmetrical muffler configuration for higher packing volume and a machined mid pipe to head pipe joint for a better fit are other highlights. The Ti-6 is proudly made in the USA.

T-6 STAINLESS STEEL EXHAUST SYSTEM

FROM \$779.95

- The T-6 offers maximum performance and is constructed of stainless steel throughout the head pipe, mid pipe and end-cap while the canister is aluminum. The T-6 is perfect for any closed-course or off-road racer looking for improved performance, durability and a professional look. More features offered by the T-6 is the ability to meet AMA amateur racing sound requirements and that it comes equipped with a U.S.F.S. approved spark arrestor making it easy to alternate between off-road and closed-course racing. The T-6 is proudly made in the USA.

T-6 STAINLESS STEEL SLIP-ON SILENCER

\$464.95

- The T-6 Stainless Steel Slip-On Silencer is designed for a rider looking for an inexpensive, easy-to-install, durable performance silencer that can bolt onto their stock head pipe. This slip-on silencer is constructed of stainless steel throughout the mid pipe and end-cap while the canister is constructed of aluminum for increased durability. Although the T-6 slip-on will not pass FIM sound requirements seen in professional racing, this slip-on is a great option for any rider looking for an increase in performance on a small budget. Equipped with a removable U.S.F.S. spark arrestor. The T-6 Slip-On is proudly made in the USA.

DECALS

FROM \$14.95

- Available for most four-stroke systems.

PACKING KITS

FROM \$23.95

- Keep your bike running quietly and its very best.

OEM HEAD PIPES

FROM \$199.95

- Works with OEM or Pro Circuit Slip-Ons.

Ti-5 TITANIUM SYSTEM WITH CARBON FIBER END-CAP FROM \$999.95

- Designed for optimum performance, the Ti-5 offers increased horsepower and is a perfect choice for closed-course racing. The system is made of titanium throughout the head pipe, mid pipe and muffler. Equipped with a machined aluminum muffler bracket and machined mid pipe to head pipe joint for a better fit. The Ti-5 is proudly made in the USA.

T-5 STAINLESS STEEL SLIP-ON SILENCER \$464.95

- The T-5 Stainless Steel Slip-On Silencer was designed for a rider looking for an inexpensive, easy-to-install, lightweight performance silencer that can bolt right onto their stock head pipe. Equipped with a machined aluminum muffler bracket, a removable U.S.F.S. approved spark arrestor and optional insert for closed-course competition are also included. The T-5 is proudly made in the USA.

Ti-4R TITANIUM EXHAUST SYSTEM FROM \$999.95

- The Ti-4R Titanium Exhaust System was designed to deliver unparalleled performance for closed-course competition. The system is constructed of titanium throughout the head pipe, mid pipe, muffler and end-cap. The Ti-4R also includes a CNC-machined exhaust flange on the head pipe for a better fit and strong mounting brackets for durability. The Ti-4R is proudly made in the USA.

T-4S STAINLESS STEEL SLIP-ON SILENCER FROM \$324.95

- The T-4S Stainless Steel Slip-On Silencer is an inexpensive, easy-to-install, lightweight performance silencer. A slip-on is a perfect alternative for riders who don't need or want to replace their stock head pipe. Includes a U.S.F.S. approved spark arrestor, stainless steel mid pipe and end-cap, aluminum muffler and strong mounting brackets for durability. The T-4S is proudly made in the USA.

Pro Circuit still carries Ti-5, T-5, Ti-4 and T-4 exhaust systems for older model dirt bikes that have not been superseded by the Ti-6 or T-6. Please call for more information on whether we carry exhaust for your specific application.

Single exhaust system also available.
(Opposite page)

T-6 YAMAHA RAPTOR 700R STAINLESS EXHAUST SYSTEMS

FROM \$779.95

- Our T-6 single and dual systems for the Yamaha Raptor 700R are designed to improve performance and are constructed from stainless steel, offering ATV riders a more durable system. The T-6 also comes equipped with United States Forest Service (U.S.F.S.) approved spark arrestor(s), making it easy to alternate between closed-course and off-road riding. The T-6 is proudly made in the USA.

T-5 CAN-AM MAVERICK 1000 SLIP-ON SILENCERS

\$670.95

- A must-have for any pure-sport enthusiast, the T-5 Slip-On is lightweight and durable to satisfy any Can-Am driver. Includes U.S.F.S. approved spark arrestors and increased packing volume to ensure sustained performance. The T-5 is proudly made in the USA.

T-5 POLARIS RZR XP 900 EXHAUST SYSTEM

\$898.95

- The aluminum and stainless steel construction provides a lightweight, yet durable exhaust to cater to any off-road driver. Includes a U.S.F.S. approved spark arrestor, allowing you to drive within the U.S. National Parks. The T-5 is proudly made in the USA.

T-5 TERYX4 750 AND 800 SLIP-ON SILENCERS

\$670.95

- The Teryx4 750 and 800 T-5 Slip-On Silencers are aluminum and stainless steel, which provide a lightweight and durable exhaust. These silencers are easy to install and are U.S.F.S. approved. The T-5 is proudly made in the USA.

T-4 ATV STAINLESS STEEL EXHAUST SYSTEM

FROM \$264.95

- Our T-4 ATV systems offer increased performance gains and are constructed from Stainless steel and aluminum. Strong mounting brackets included for durability and each exhaust is proudly made in the USA. Titanium exhaust systems are also available.

YZ Raptor 700R

2-STROKE EXHAUST

- PIPES
- SILENCERS
- MINI PIPES AND SILENCERS

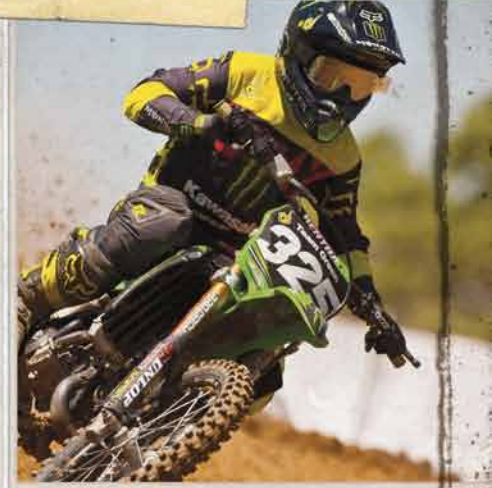

The demand for two-stroke exhaust doesn't seem to be slowing down, and for those in need of a pipe and silencer, look no further, because we have just what you need to get out there and enjoy your ride. We offer a wide variety of two-stroke exhaust ranging from our popular Works Pipe and Ti-2 silencer for racing to our Platinum Pipes and Type 296 Spark Arrestor Silencer for off-road racing and recreational use.

We also cater to the younger riders starting out and coming up through the ranks. Pipes and silencers are available for select 50s through 85/100s. Mini exhaust offers the same performance as the standard sized bikes, just in a tiny package. ATV exhaust is also available for the four-wheel supporters and performance extends into our Platinum Pipes, 304 Silencer and Type 296 Silencers.

For forty years we have been crafting pipes and adding more performance to all major bike brands and models. Our latest piece of two-stroke technology, the Ti-2 Carbon/Kevlar Titanium Silencer, is undoubtedly the coolest silencer we have ever made. Our Works Pipe that helped superstars like Jeremy McGrath and Ricky Carmichael to ride to the top-step of the podium is still a powerful advantage as it was back then. Two-strokes are where we originated from, and if riders are still tearing up tracks and blazing trails across the world on their 125cc or 250cc dirt bikes, then we will continue to manufacture pipes and silencers for the fanatics who can't get enough of that sweet two-stroke sound we all love so much.

Stilez Robertson

Ryder DiFrancesco

WORKS PIPE

FROM \$229.95

- The Works Pipe offers unparalleled performance and power for every two-stroke application. Increased horsepower and torque gains will quickly be noticed across the entire RPM range while the unplated, oiled metal finish gives your bike the "factory look". All Works Pipes are stamped AKDQ high-quality carbon steel, consists of hand welded and pounded seams and features reinforced mounting brackets and stingers. The Works Pipe is proudly made in the USA.

PLATINUM PIPE

AVAILABLE FOR SELECT ATVs

FROM \$229.95

- Offering the same performance gains as the Works Pipe, the Platinum Pipe comes with a nickel plated finish to reduce rider maintenance. It is the ideal choice for extreme weather condition riding and is stamped from AKDQ high-quality carbon steel, consists of hand welded and pounded seams and features reinforced mounting brackets and stingers. The Platinum Pipe is proudly made in the USA.

PLATINUM 2 PIPE

FROM \$249.95

- Like the Works and Platinum pipes, the Platinum 2 Pipe offers incredible performance with substantial power gains in the low-to-mid range, but is tuned specifically for people who ride or race off-road. The Platinum 2 is also stamped from AKDQ high-quality carbon steel, consists of hand welded and pounded seams and features reinforced mounting brackets and stingers. The Platinum 2 Pipe is proudly made in the USA.

TI-2 SHORTY CARBON KEVLAR/TITANIUM SILENCER

\$329.95

- The Ti-2 is similar to the popular R-304 silencer except it is constructed with a carbon Kevlar shell, titanium tubing and titanium end-cap. The titanium and carbon Kevlar construction offers the "factory" look and appearance while reducing weight. For closed-course racing only.

R-304 STAINLESS SHORTY SILENCER

\$134.95

- The R-304 was developed as a full-race two-stroke silencer. The compact design of the short aluminum canister offers optimum performance gains and is recommended for closed-course racing only. Allen head screws ensure easy repacking when needed for extended product life.

304 FACTORY SOUND SILENCER

AVAILABLE FOR SELECT ATVs

\$134.95

- The 304's slightly longer body offers added top-end performance while reducing noise output. The brushed aluminum body and stainless steel inlet tube and end-cap gives you a silencer that looks as good as it performs. The 304 is for closed-course racing only.

TYPE 296 SPARK ARRESTOR SILENCER

AVAILABLE FOR SELECT ATVs

\$159.95

- The Type 296 is a quiet spark arrestor that should be used when riding in noise sensitive areas or any National Forest. It is easy to repack when needed and features an aluminum and stainless steel construction for increased durability. Equipped with a U.S.F.S. approved spark arrestor.

WORKS AND PLATINUM MINI PIPES

FROM \$229.95

- The Pro Circuit Works and Platinum Pipes for mini riders still maintain the same performance gains as the standard Works and Platinum Pipes for big bike riders, just in a smaller package. Hand welded and pounded seams, stamped AKDQ high-quality carbon steel, reinforced mounting brackets and stingers are still incorporated into every mini pipe we offer. Works and Platinum mini pipes are proudly made in the USA.

TI-2 MINI SILENCER \$329.95

R-304 AND 304 MINI SILENCERS \$134.95

TYPE 296 MINI SPARK ARRESTOR SILENCER \$159.95

- Much like our mini pipes, Pro Circuit's mini silencers continue to offer the same performance gains as the standard silencers do. Whether you choose a Ti-2, R-304 or 304 silencer for racing or the Type 296 for forest or desert trails, you will find the perfect silencer your mini ripper needs to start his or her motorcycle journey the right way. Our line of mini silencers are proudly made in the USA.

PACKING KITS

\$20.95

- Two-stroke packing kits are available in a couple different sizes for all Pro Circuit silencers. All hardware is included to keep your bike running quietly and our packing kits are made in the USA.

RACE TEAM SPONSOR PRODUCT

Pro Circuit stocks and sells most of our race team sponsor products. Listed here is just a small sample of the products available through our sales office.

TERMS AND CONDITIONS

BUSINESS HOURS: Pro Circuit Products, Inc. is open from 9:00am to 6:00pm (PST) Monday through Friday. The service and suspension departments are open from 9:00am to 6:00pm (PST) Monday through Friday. The showroom is open to the public from 9:00am to 6:00pm (PST) Monday through Friday. Pro Circuit Products, Inc. is closed on weekends and all major holidays.

PRICES: All prices are subject to change without prior oral or written notice. All orders are invoiced at prices in effect at the time of the shipment.

CONTENTS: Pro Circuit Products, Inc. believes the contents and specifications of its catalog, website, ads and promotions are correct. We assume no liability for any errors in listings, specifications, part numbers, prices or model applications. We reserve the right to change specifications, product descriptions, product quality, pricing and application at any time without prior oral or written notice.

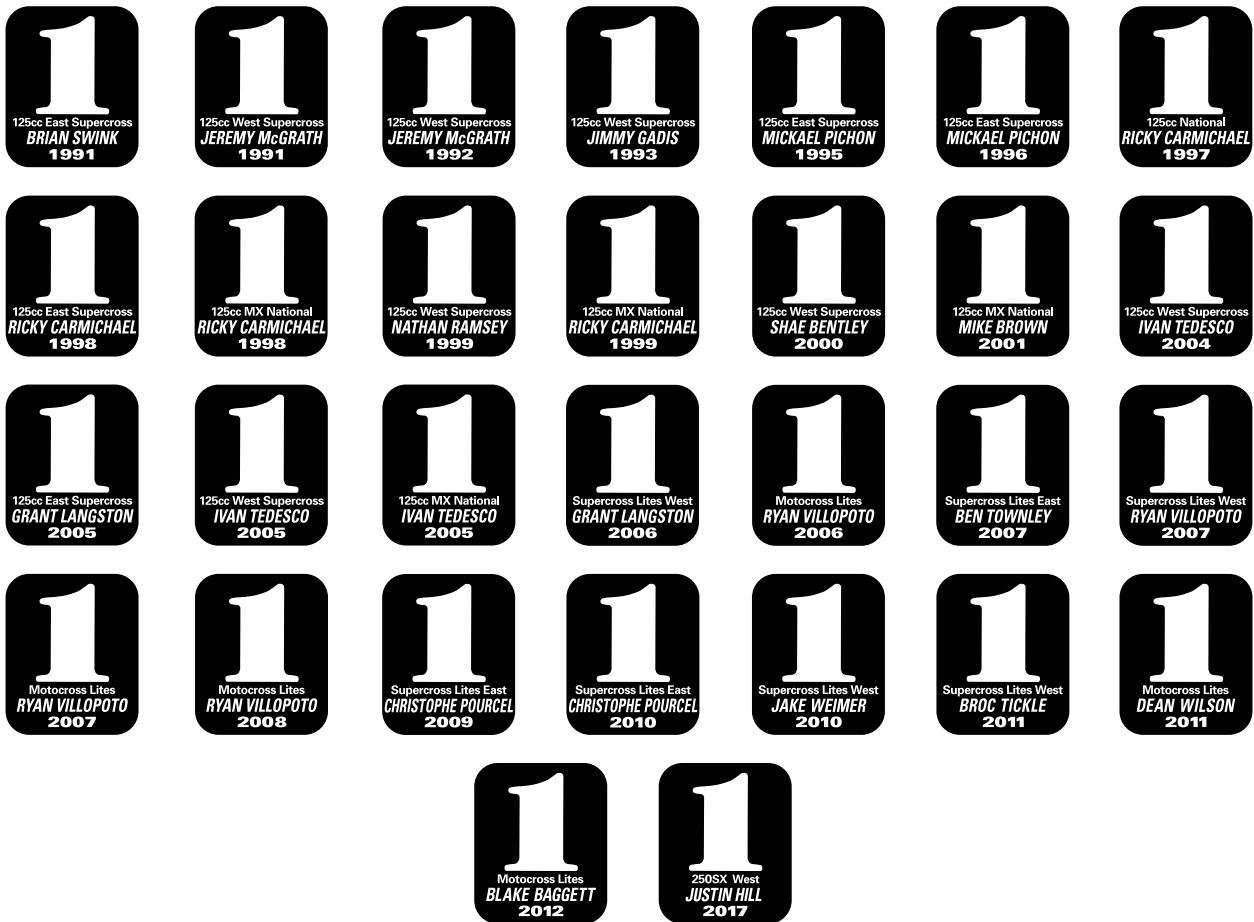

BACK ORDERS: Pro Circuit Products, Inc. will always try to avoid back orders. However if a back order situation does occur, Pro Circuit Products, Inc. will take your order and ship your product as soon as it is available.

SHIPPING: All orders are shipped via FedEx, UPS or US Postal Service (military addresses only). The standard shipping method is FedEx ground service. FedEx Express (3-day), air (2-day), overnight (1-day) and UPS services are also available at additional costs, and only when requested and approved by Pro Circuit Products, Inc. Pro Circuit Products, Inc. does not offer COD delivery for retail customers. If you require your order to be shipped via US Postal Service (military addresses only), there will be additional handling fees due to costs incurred by Pro Circuit Products, Inc. in delivering packages to the post office.

RETURNS: No returns will be accepted on unused products after 30 days of purchase date. Returns for warranty consideration must be approved by Pro Circuit Products, Inc. Prior to ANY return shipment, call Pro Circuit Products, Inc. for a return authorization number (RA#). New product must be in original packaging and in condition fit to sell as new. A copy of your original sales receipt must be included with the product being returned. Authorized returns are subject to a restocking fee of up to 20% of the original purchase price. All sales are final on discontinued and close out items.

LIABILITY: All products manufactured and/or distributed by Pro Circuit Products, Inc. are offered and designed for use with standard machines. Pro Circuit Products, Inc. makes no claims as to the products effectiveness on modified machines. Pro Circuit Products, Inc. is the sole determiner of abuse, misuse, installation errors and modifications. We assume no liability for any errors in listings, specifications, part numbers, prices or model applications. Pro Circuit Products, Inc. reserves the right to change specifications, product descriptions, product quality, pricing and model applications at any time without prior oral or written notice and without further obligation.

Adding new components to your motorcycle (especially to the engine, suspension or braking system) may radically alter the acceleration, deceleration, handling and braking characteristics of your motorcycle. Ensure that all parts are installed and properly torqued per the instructions supplied with the part or to the motorcycle manufacturer's original specifications. Test the motorcycle with the new part(s) on level ground, at low speed, without any other vehicles or obstacles nearby, to ensure that it is working properly. Periodically recheck, adjust or replace the parts as may be necessary depending upon the terrain, use, mileage and rider input. Consult the instructions supplied with the part, or the motorcycle manufacturer's original specifications for further details. The failure to properly install, maintain, or familiarize yourself with the new part's use, and proper operation, may result in damage to the motorcycle, and/or a loss of control, resulting in serious injury or death. Buyers assume all risk for any and all damage caused to themselves, a third party and/or property by virtue of failure of these products. By installing and/or using a Pro Circuit Products, Inc. product, you hereby accept and understand these stated terms and conditions.

You don't race to lose.
