

PRO CIRCUIT

TWENTY FIFTEEN

PRO CIRCUIT
RACING INTERNATIONAL

The image shows a modern, white, multi-story building with large glass windows. The building is viewed from a low angle, looking up. The sky is clear and blue. The sign is mounted on the upper part of the building, above a large glass window. The sign consists of the words 'PRO CIRCUIT' in large, bold, yellow letters with black outlines, and 'RACING INTERNATIONAL' in smaller, red letters below it. The building has a clean, architectural design with white panels and large glass sections.

HERE WE GO AGAIN!

It is the beginning of the 2015 season, but before we dive in to building engines, crafting exhaust systems by hand and freshening up forks and shocks, we want to take this opportunity to thank all of our customers and to let them know we appreciate their business and confidence in our products and services. Your loyalty and support make the hours of testing, grinding cylinders, fine-tuning suspension specs and exhaust manufacturing worthwhile.

With the help of our in-house testing facility, race team and support riders (who own all brands and sizes of motorcycles), we will continue to pursue our passion to develop and produce the best race-proven products possible for our customers. It's what we do. Now, If you'll excuse us, we have some dirt bikes to attend to.

A stylized, handwritten signature in white ink, appearing to read 'Mitch Payton', set against a clear blue sky background.

Mitch Payton

FOUR-STROKE EXHAUST

It has been seventeen years since Yamaha first introduced the YZ400F to the sport of Motocross back in 1998. A few years prior, we had already begun research and development towards this new type of racing technology that would inevitably change the sport.

It is now 2015, and research and development still continues to be an essential part of our daily routine. Our exhaust systems are developed in-house and carefully tested with the help of our race team and support riders to ensure you are getting the very best product we can create to help separate you from your competition on the race track.

Whether you plan to take on the professional circuit, amateur events, off-road races, UTV/ATV trails or you enjoy riding a fun loop in the desert with your buddies, we have just the type of exhaust you are looking for.

The Ti-6 Pro Titanium Exhaust System is a full race system, and does not include a USFS approved spark arrestor. The Ti-6 Pro is intended for AMA/FIM closed course racing only.

Ti-6 PRO TITANIUM EXHAUST SYSTEM

RETAILS FROM \$999.95

- The next generation of professional level race exhausts
- Ideal for series such as AMA Supercross/Motocross
- Passes AMA/FIM sound regulations
- Titanium construction throughout head pipe, mid pipe and canister
- Carbon fiber end-cap construction
- Equipped with RC-4 Resonance Chamber (on select models)
- Machined aluminum muffler bracket for strength and durability
- Asymmetrical muffler configuration for increased packing volume
- Machined mid pipe to head pipe joint for a better, leak free fit
- TIG precision welding
- Made in the USA

REPLACEMENT DECALS

RETAILS FROM \$14.95

- Replacement decals are available for the Ti-6 line including Honda CRF dual exhaust systems.

CARBON FIBER END-CAPS

RETAILS FROM \$99.95

- Replacement carbon fiber end-caps are available for Ti-6 Pro and Ti-6 Titanium Exhaust Systems.

Ti-6 TITANIUM EXHAUST SYSTEM

RETAILS FROM \$999.95

- Offering maximum performance while meeting AMA amateur noise requirements
- Ideal for closed course or off-road racing
- Titanium construction throughout head pipe, mid pipe and canister
- Carbon fiber end-cap construction
- Equipped with RC-4 Resonance Chamber (on select models)
- Machined aluminum muffler bracket for strength and durability
- Asymmetrical muffler configuration for increased packing volume
- Machined mid pipe to head pipe joint for a better, leak free fit
- Removable USFS approved spark arrestor
- TIG precision welding
- Made in the USA

Having trouble installing a new exhaust system? Contact Pro Circuit's Service Department at 951.738.8050.

951.738.8050

www.procircuit.com

T-6 STAINLESS STEEL EXHAUST SYSTEM

RETAILS FROM \$779.95

- Offers the same performance as the Ti-6
- Lower cost and increased durability
- Ideal for closed-course or off-road racing
- Stainless steel throughout head pipe, mid pipe and end-cap
- Aluminum canister construction
- Equipped with RC-4 Resonance Chamber (on select models)
- Machined aluminum muffler bracket for strength and durability
- Asymmetrical muffler configuration for increased packing volume
- Machined mid pipe to head pipe joint for a better, leak free fit
- Removable USFS approved spark arrestor
- TIG precision welding
- Made in the USA

REPLACEMENT DECALS

RETAILS FROM \$14.95

- Replacement decals are available for the T-6 Stainless Steel Exhaust System.

T-6 STAINLESS STEEL SLIP-ON SILENCER

RETAILS FROM \$464.95

- Offers similar performance to the T-6 System
- Designed to work with OEM head pipe or Pro Circuit stainless steel head pipes
- Ideal for closed-course or off-road racing
- Stainless steel throughout mid pipe and end-cap
- Aluminum canister construction
- Machined aluminum muffler bracket for strength and durability
- Asymmetrical muffler configuration for increased packing volume
- Removable USFS approved spark arrestor
- TIG precision welding
- Made in the USA

REPLACEMENT DECALS

RETAILS FROM \$14.95

- Replacement decals are available for the T-6 Stainless Steel Slip-On Silencer.

FOUR-STROKE EXHAUST

Ti-5 TITANIUM EXHAUST SYSTEM - CARBON FIBER END-CAP RETAILS FROM \$999.95

- Designed for optimum performance
- Ideal for closed-course racing
- Titanium construction throughout head pipe, mid pipe and canister
- Carbon fiber end-cap construction
- Equipped with RC-4 Resonance Chamber
- Machined aluminum muffler bracket for strength and durability
- Asymmetrical muffler configuration for increased packing volume
- Machined mid pipe to head pipe joint for a better, leak free fit
- TIG precision welding
- Made in the USA

Ti-5 TITANIUM EXHAUST SYSTEM - TITANIUM END-CAP RETAILS FROM \$999.95

- Designed for optimum performance
- Ideal for closed-course racing
- Titanium construction throughout head pipe, mid pipe and canister
- Titanium end-cap construction
- Equipped with RC-4 Resonance Chamber
- Machined aluminum muffler bracket for strength and durability
- Asymmetrical muffler configuration for increased packing volume
- Machined mid pipe to head pipe joint for a better, leak free fit
- TIG precision welding
- Made in the USA

T-5 STAINLESS STEEL EXHAUST SYSTEM RETAILS FROM \$779.95

- Designed for optimum performance
- More affordable alternative to titanium
- Ideal for closed-course or off-road racing
- Stainless steel throughout head pipe, mid pipe and end-cap
- Aluminum canister construction
- Equipped with RC-4 Resonance Chamber
- Machined aluminum muffler bracket for strength and durability
- Asymmetrical muffler configuration for increased packing volume
- Machined mid pipe to head pipe joint for a better, leak free fit
- Removable USFS approved spark arrestor and racing insert
- TIG precision welding
- Made in the USA

T-5 STAINLESS STEEL SLIP-ON SILENCER RETAILS FROM \$464.95

- Designed for optimum performance
- Designed to work with OEM head pipe or Pro Circuit stainless steel head pipes
- Ideal for closed-course or off-road racing
- Stainless steel throughout mid pipe and end-cap
- Aluminum canister construction
- Machined aluminum muffler bracket for strength and durability
- Asymmetrical muffler configuration for increased packing volume
- Removable USFS approved spark arrestor and racing insert
- Made in the USA

◦ Replacement decals are available for the Ti-5 and T-5 line exhausts.

Ti-4R TITANIUM EXHAUST SYSTEM

RETAILS FROM \$999.95

- Ideal for closed-course racing
- Titanium construction throughout head pipe, mid pipe, can and end-cap
- Equipped with RC-4 Resonance Chamber*
- Strong mounting brackets for strength and durability
- CNC machined exhaust flange on head pipe for a perfect fit
- TIG precision welding
- Made in the USA

T-4R STAINLESS STEEL EXHAUST SYSTEM

RETAILS FROM \$779.95

- Ideal for closed-course racing
- Stainless steel throughout head pipe, mid pipe and end-cap
- Aluminum canister construction
- Equipped with RC-4 Resonance Chamber*
- Strong mounting brackets for strength and durability
- CNC machined exhaust flange on head pipe for a perfect fit
- Made in the USA

T-4 STAINLESS STEEL EXHAUST SYSTEM

RETAILS FROM \$749.95

- Ideal for closed-course racing or off-road racing
- Stainless steel throughout head pipe, mid pipe and end-cap
- Aluminum canister construction
- Equipped with RC-4 Resonance Chamber*
- Strong mounting brackets for strength and durability
- CNC machined exhaust flange on head pipe for a perfect fit
- Removable USFS approved spark arrestor and racing insert
- Made in the USA

T-4S STAINLESS STEEL SLIP-ON SILENCER

RETAILS FROM \$374.95

- Incredible horsepower gains when compared to stock
- Designed to work with OEM head pipe or Pro Circuit stainless head pipes
- Stainless steel throughout mid pipe and end-cap
- Aluminum canister construction
- Strong mounting brackets for strength and durability
- Removable USFS approved spark arrestor and racing insert
- TIG precision welding
- Made in the USA

HEAD PIPES STAINLESS STEEL

RETAILS FROM \$199.95

- Works with OEM or Pro Circuit Slip-On exhaust
- Ideal replacement for the stock unit
- Stainless steel construction

PACKING KITS FOUR-STROKE

RETAILS FROM \$23.95

- Keep your bike running quietly and its very best
- Re-packing recommended every 10-15 hours, but it varies between riders

EXHAUST PLUG FOUR-STROKE

RETAILS FROM \$8.95

- Essential item when washing your dirt bike
- Prevents water and mud from leaking into your exhaust system

*Depending on the year of your bike, the RC-4 Resonance Chamber may not come with the system.

FOUR-STROKE EXHAUST

ATV/UTV FOUR-STROKE EXHAUST

Ti-4 ATV SLIP-ON SILENCER

RETAILS FROM \$474.95

- Removable spark arrestor
- Constructed of titanium throughout silencer body
- Slip-fit inlet for quick installation and reduced weight
- Drilled titanium mounting brackets
- TIG precision welding
- Made in the USA

T-4 ATV SLIP-ON SILENCER

RETAILS FROM \$374.95

- Removable spark arrestor
- Constructed of stainless steel/aluminum throughout silencer body
- Slip-fit inlet for quick installation and reduced weight
- Strong mounting brackets for strength and durability
- TIG precision welding
- Made in the USA

T-5 KFX50 ATV STAINLESS STEEL EXHAUST SYSTEM

RETAILS FROM \$299.95

- Removable USFS approved spark arrestor
- Stainless steel head pipe and end-cap
- Aluminum canister and strong muffler bracket
- Asymmetrical muffler design for increased packing volume
- TIG precision welding
- Made in the USA

T-5 TERYX4 750 UTV SLIP-ON SILENCERS

RETAILS FROM \$670.95

- Removable USFS approved spark arrestor
- Stainless steel tubing and end-cap
- Aluminum canister construction
- Asymmetrical muffler design for increased packing volume
- TIG precision welding
- Made in the USA

T-5 POLARIS RZR XP 900 UTV STAINLESS STEEL EXHAUST SYSTEM

RETAILS FROM \$898.95

- Removable USFS approved spark arrestor
- Closed-course off-road racing tips included
- Pro Circuit custom heat shield
- Stainless steel tubing and end-cap
- Made in the USA

T-5 CAN-AM MAVERICK 1000 UTV SLIP-ON SILENCERS

RETAILS FROM \$670.95

- Removable USFS approved spark arrestor
- Asymmetrical muffler design for increased packing volume
- Aluminum canister construction
- Stainless steel tubing and end-caps
- Made in the USA

TWO-STROKE EXHAUST

Two-Strokes aren't dead. They are still alive and roosting dirt. We know this, and that's is why we continue to develop and manufacture pipes and silencers for the two-stroke fanatics. We offer a wide variety of two-stroke exhaust ranging from our popular Works Pipe and new Ti-2 Silencer for racing to our Platinum Pipes and Type 296 Silencer for off-road racing and recreational use.

We started off in 1978 building pipes for Husqvarna dirt bikes, it is now 2015, and we build pipes for all major bike brands and models including mini bikes and ATV's. Our two-stroke exhaust has taken legends like Ricky Johnson, David Bailey, Bob Hannah, Damon Bradshaw, Jeremy McGrath and Ricky Carmichael to the top-step of the podium. We will never forget those riders or the current ones, and that is why we remain committed to two-stroke development much like we did 37 years ago.

**CARSON
MUMFORD**

**TAKA
HIGASHINO**

**SHANE
HUFFORD**

Andrew Kane

- Pro Circuit Two-Stroke Pipes are available for all major bike brands including: **Beta, Honda, Husqvarna, Kawasaki, KTM, Suzuki and Yamaha.**

WORKS PIPE

RETAILS FROM \$241.95

- Offers unparalleled performance and power for every two-stroke application
- Noticeable horsepower and torque gain across the entire rpm range
- Unplated, oiled metal finish give your bike that "factory look"
- Stamped AKDQ high-quality carbon steel construction
- Hand welded and pounded seams
- Reinforced mounting brackets and stingers
- Machined exhaust flange offers a perfect, leak free fit
- Made in the USA

PLATINUM PIPE

RETAILS FROM \$241.95

- Offers the same performance gains as the Works Pipe
- Nickel plated finish reduces rider maintenance and helps protect against nature's elements
- Ideal choice for extreme weather condition riding
- Stamped AKDQ high-quality carbon steel construction
- Hand welded and pounded seams
- Reinforced mounting brackets and stingers
- Machined exhaust flange offers a perfect, leak free fit
- Made in the USA

PLATINUM 2 PIPE

RETAILS FROM \$249.95

- Offers the same performance gains as the Works Pipe
- Nickel plated finish reduces rider maintenance and helps protect against nature's elements
- Ideal choice for riding or racing off-road or extreme weather condition riding
- Stamped AKDQ high-quality carbon steel construction (18-gauge)
- Hand welded and pounded seams
- Reinforced mounting brackets and stingers
- Machined exhaust flange offers a perfect, leak free fit
- Made in the USA

Ti-2 SHORTY CARBON KEVLAR/TITANIUM SILENCER

RETAILS FROM \$329.95

- Optimum performance gains much like the R-304 Silencer
- Carbon Kevlar silencer body construction
- Titanium tubing and end-caps
- CNC machined aluminum mounting bracket(s) (select models)
- Double-walled aluminum mounting bracket(s) (select models)
- For closed-course racing only
- Offers a "factory look"
- Made in the USA

R-304 STAINLESS SHORTY SILENCER

RETAILS FROM \$134.95

- The compact design offers optimum performance gains
- Our most popular "full race" silencer
- Aluminum and stainless steel construction
- Lightweight and durable
- Double-walled mounting bracket(s) for increased strength
- Easy to repack when needed
- For closed-course racing only
- Made in the USA

304 FACTORY SOUND SILENCER

RETAILS FROM \$134.95

- Longer body design helps to reduce noise output
- 6061 T6 brushed aluminum body for lightweight and durability
- Double-walled mounting bracket(s) for increased strength
- Recommended for any two-stroke application
- Easy to repack when needed
- Fits Pro Circuit or most stock exhaust pipes*
- Made in the USA

TYPE 296 SPARK ARRESTED SILENCER

RETAILS FROM \$159.95

- Equipped with a USFS approved spark arrestor
- Reduces noise output
- Double-walled mounting bracket(s)
- Easy to repack when needed
- Made in the USA

PACKING KITS TWO-STROKE

RETAILS FROM \$20.95

- Available in different sizes for all Pro Circuit two-stroke silencers
- All hardware and packing needed to keep your bike running quietly
- Made in the USA

EXHAUST FLANGE TWO-STROKE

RETAILS FROM \$39.95

- Eliminate all casting flaw problems associated with the 2002-2003 CR125R and CR250R models
- CNC machined and much more durable than stock

*For more information on specific applications, please give us a call.

TWO-STROKE EXHAUST

MINI/ATV TWO-STROKE EXHAUST

KX85/100 Works Pipe &
R-304 Silencer shown.

KTM 85 Works Pipe &
R-304 Silencer shown.

KAWASAKI KX65/80/85/100 PIPES & SILENCERS

PIPES RETAIL FROM \$229.95

SILENCERS RETAIL FROM \$134.95

- For Kawasaki mini models we offer an array of pipes and silencers to increase performance. From our Works Pipe and R-304 Silencer for racing to our Type 296 Spark Arrested Silencer for riding in any national forest.

CX65 Works Pipe &
R-304 Silencer shown.

KTM 50/65/85 PIPES & SILENCERS

PIPES RETAIL FROM \$229.95

SILENCERS RETAIL FROM \$134.95

- We offer many pipes and silencers to increase the performance of KTM mini bikes. Choose from our Works Pipe and R-304 Silencer for racing to our Type 296 Spark Arrested Silencer for riding in any national forest.

YZ85 Works Pipe &
R-304 Silencer shown.

COBRA CX50/CX65 PIPES & SILENCERS

PIPES RETAIL FOR \$241.95

R-304 SILENCERS RETAIL FOR \$134.95

- For the Cobra CX50 and CX65 models, we offer our Works and Platinum Pipes as well as our popular R-304 Silencer to increase performance for your mini race machine.

MINI BIKE PIPES & SILENCERS

PIPES RETAIL FROM \$229.95

SILENCERS RETAIL FROM \$134.95

- We offer pipes and silencers for other mini bike brands and models including: Honda CR80/85R, RM85/100 and YZ80/85 models.

TYPE 296 ATV SPARK ARRESTED SILENCERS

RETAILS FROM \$159.95

- Equipped with a USFS approved spark arrestor
- Reduces noise output
- Easy to repack when needed
- Made in the USA

YZ350 Banshee Platinum Pipe
& 304 Silencer shown.

ATV PLATINUM PIPES & 304 SILENCERS

PLATINUM PIPES RETAIL FROM \$229.95

304 SILENCERS RETAIL FROM \$119.95

- We offer performance pipes and silencers for not only dirt bikes, but ATV models as well like: Honda TRX250R, Yamaha YSF200 Blaster, YFZ350 Banshee and more.

ENGINE MODIFICATIONS

Building a race engine with the goal to increase power without any loss of reliability is a task that requires years of tuning experience. Thankfully for you, we have over 35 years of experience building race motors.

Research and development is a huge part of our success. We dedicate an extensive number of hours at the track and testing on the dyno to ensure your engine is producing more usable power while making the motor more reliable. We take pride in not only building some of the fastest and dependable big bike engines in the industry, but mini bike engines as well.

In addition to engine modifications, we also offer a host of engine performance parts and accessories like: high-compression pistons, camshafts, radiator hose kits and more that can actually increase the lifespan of your race motor.

FOUR-STROKE ENGINE MODIFICATIONS & SERVICES

- Pro Circuit engine modifications increase power from bottom-to-top with no loss of reliability.
- Our modifications are developed and tested using our flow bench and race shop dynos.
- Any four-stroke race bike or ATV engine will benefit from one of our engine modifications.
- Pro Circuit's expertise in building the World's most advanced engines is a direct result of working with some of the fastest and most talented racers. Racers like: Ricky Carmichael, James Stewart, Ryan Villopoto, Chad Reed, Dean Wilson, Blake Baggett and Kevin Windham have been a great help in our engine development process.

◦ HEAD MODIFICATIONS PORT AND POLISH	RETAILS FROM \$549.95
◦ CNC MACHINE HEAD MODIFICATIONS	RETAILS FROM \$649.95
◦ REMOVE & REPLACE HEAD/CYLINDER	RETAILS FROM \$359.95
◦ CRANKSHAFT REBUILD	RETAILS FROM \$99.95
◦ RE CUT VALVE SEATS	RETAILS (PER SEAT) FROM \$39.95

Listed above are a few services/modifications Pro Circuit offers for four-stroke engines. For more information, please visit our In-House Motor Modifications section on our website or give us a call.

COPPER BERYLLIUM VALVE SEATS

(COST PER SEAT) RETAILS FROM \$129.95

- Copper Beryllium Valve Seats will not chip like the stock seats, and dissipate heat better which will increase the lifespan of your valves.

REM ISOTROPIC FINISHING TRANSMISSION

RETAILS FROM \$349.95

- REM Isotropic Finishing helps to reduce friction, increase the lifespan of your transmission parts, improve shifting, reduce noise, lessen vibration and lowers operating temperatures.

TWO-STROKE ENGINE MODIFICATIONS

- Pro Circuit engine modifications increase power from bottom-to-top with no loss of reliability.
- Our modifications are developed and tested using our race shop dynos.
- Any two-stroke race engine will benefit from one of our engine modifications.
- Pro Circuit's expertise in building the World's most advanced engines is a direct result of working with some of the fastest and most talented racers. Racers like: Ricky Carmichael, James Stewart, Ryan Villopoto, Adam Cianciarulo, Carson Mumford and Jett Reynolds have been a great help in our engine development process.

◦ HEAD & CYLINDER MODIFICATIONS	RETAILS FROM \$349.95
◦ CARBURETOR SERVICE	RETAILS FROM \$39.95
◦ BORE & HONE STEEL CYLINDER	RETAILS FROM \$89.95
◦ REMOVE & REPLACE POWER VALVE	RETAILS FROM \$74.95

Listed above are a few services/modifications Pro Circuit offers for two-stroke engines. For more information, please visit our In-House Motor Modifications section on our website or give us a call.

MINI ENGINE MODIFICATIONS

SUPERMINI ENGINE BUILDING

- **CR85 SUPERMINI** FROM \$1,999.95
- **KX85 SUPERMINI** FROM \$1,999.95
- **KX100 SUPERMINI** FROM \$2,249.95
- **KTM 85 SUPERMINI** FROM \$2,195.00
- **RM85 SUPERMINI** FROM \$2,035.00
- **YZ85 SUPERMINI** FROM \$1,999.95

Prices listed above are based on a new engine supplied to Pro Circuit for modifications. Cost may vary depending on condition of engine supplied by the customer.

Kawasaki KX100 Supermini engine shown. Two-piece power valve and governor spring are sold separately.

SHORT CARBURETOR MODIFICATION

RETAILS FROM \$249.95

- The Short Carburetor Modification will increase throttle response, increase power from bottom-to-top with more over rev and choke removal.

CARBURETOR BORING

RETAILS FROM \$124.95

- Having your carburetor bored will improve mid-to-top power and is available for the KX85/100 and CRF150R models only.

GOVERNOR SPRING KX85/100 2002-2014

RETAILS FROM \$20.00

- The stock governor spring on the Kawasaki KX85/100 is too stiff causing the valve to open too late, which results in a dip in the horsepower curve. The Pro Circuit Governor Spring allows the valve to open at the right time, eliminating the dip in the horsepower curve and resulting in improved bottom-end.

POWER VALVE (TWO-PIECE) KX85/100 2001-2013

RETAILS FROM \$229.95

- The Pro Circuit Power Valve for the KX85/100 lowers the exhaust port height to where it should be, resulting in huge gains in the bottom-end while maintaining peak horsepower. This power valve combined with the governor spring will provide a major improvement over the stock set up.

ADJUSTABLE POWER VALVE KTM 65 SX

RETAILS FROM \$164.95

- Pro Circuit's Adjustable Power Valve for the KTM 65 SX allows the tuner to adjust the horsepower curve. You can also use the pre-set setting that it comes with.

ENGINE MODIFICATIONS

ENGINE PERFORMANCE PARTS

HIGH-COMPRESSION PISTON WITH COATED WRIST PIN*

RETAILS FROM \$359.95

- Increasing the compression will cause an increase in both low-end torque and top-end power. Our High-Compression Piston will work equally well in a stock or modified engine. Kit contains piston, rings, wrist pin and circlips.

*A Coated Wrist Pin comes on select models only.

CAMSHAFTS

RETAILS FROM \$429.95

- Camshafts help increase the performance of your dirt bike. Pro Circuit Camshafts are designed and manufactured in the USA and meticulously designed and tested with the help of our championship-winning race team.

Honda Clutch Springs shown.

CLUTCH SPRINGS

RETAILS FROM \$69.95

- Pro Circuit Clutch Springs are a must-have for any dirt bike, stock or modified. Due to the constant heat and torque abuse the clutch is subjected to, we designed our Clutch Springs to increase clutch life and reduce slipping.

Yamaha Valve Springs shown.

VALVE SPRINGS

RETAILS FROM \$164.95

- Pro Circuit Valve Springs allow your engine to run at a higher rpm without loss of valve control. Depending on your bike, some of our Valve Springs will also include seats.

Kawasaki Valve Spring Kit Shown

VALVE SPRING KITS

RETAILS FROM \$319.95

- Valve Springs allow your engine to run at a higher rpm without the loss of valve control.

TITANIUM EXHAUST/INTAKE VALVES (PAIR)

RETAILS FROM \$357.95

- Titanium Exhaust/Intake Valves are sprayed with a thermal-nitride coating to increase performance, durability and reduce normal wear.

WRIST PIN COATED

RETAILS FROM \$109.95

- Designed to stand up to higher engine rpm and operating temperatures while also reducing friction and the chance of rod and wrist pin damage.

COATED TAPPETS (PAIR)

RETAILS FROM \$459.95

- Coated Tappets (buckets) are designed to last longer than stock, reduce cam lobe and bucket wear and will prolong the life of your engine's cam.

TRIGA iBOOST2

RETAILS FROM \$349.95

- TRIGA's iBOOST2 is an off-the-shelf, easy-to-install throttle body enhancement kit that will give you more power and better throttle response.

IMPELLER SHAFT ASSEMBLY 2014 YZ250F

RETAILS FROM \$39.95

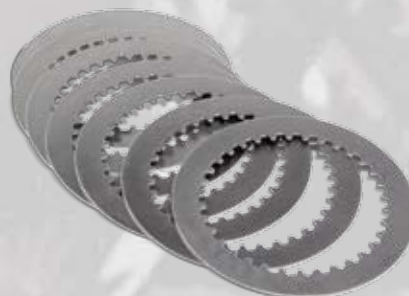

- The 2014 YZ250F Impeller Shaft Assembly provides for increased durability and reliability and helps minimize the possibility of overheating.

PROX CLUTCH PLATES FRICTION SET

RETAILS FROM \$41.58

- All friction plates are made to exact OEM specifications and offer maximum performance, smooth clutch operation and durability.

PROX CLUTCH PLATES STEEL AND ALLOY SET

RETAILS FROM \$27.16

- All steel plates are made to exact OEM specifications and offer maximum performance, longevity and durability.

RADIATOR HOSE KIT STANDARD

RETAILS FROM \$79.95

- Pro Circuit's Standard Radiator Hose Kit replaces only the stock hoses and operates at higher temperatures and pressures than other rubber hoses.

RADIATOR HOSE KIT "Y" KIT

RETAILS FROM \$199.95

- The "Y" Radiator Hose Kit is designed to eliminate the plastic "Y" elbows found in other radiator hoses that in extreme conditions can melt.

ENGINE PERFORMANCE PARTS

SCREEN ELIMINATOR KIT

RETAILS FROM \$39.95

- This replacement kit is designed for Kawasaki and Suzuki race bikes and allows the wire screen to be removed for optimum performance.

TWIN AIR FILTER

RETAILS FROM \$24.95

- Twin Air filters are designed to increase airflow while ensuring the highest level of protection from dirt and dust from entering your engine.

GET GP-1 EVO ECU WITH GPA2 + WIFI-COM

RETAILS FROM \$999.95

- The GP1-EVO is an engine control unit for four-stroke fuel-injected motorcycles. It is easy to install and has pre-set maps that offer improved performance and better throttle response. Wifi-Com ready comes with 10 preset operating levels.

GET C1 ENGINE HOUR METER

RETAILS FROM \$49.95

- The GET C1 Engine Hour Meter fits to any bike in minutes without any wiring needed and detects the engine by identifying wave frequencies that flow through the surface it sits on.

TACH/HOUR METER

RETAILS FROM \$44.95

- Pro Circuit's Tach/Hour Meter keeps track of your engine's service life and works on any type of engine. No batteries required.

Having trouble with an engine part? Contact Pro Circuit's Service Department at 951.738.8050.

SUSPENSION MODIFICATIONS

For more than 30 years we have been fine-tuning sets of suspension for our customers. Some race motocross or off-road professionally, some are up-and-coming amateurs and some just want quality-tuned suspension so they can ride with their buddies at their local track. Whatever your playground, we can create a setting tailored to your style of riding and personal specs.

Jim "Bones" Bacon, who has been a staple in the motocross industry for years, manages our suspension department and is in charge of every set of suspension that comes through our shop. Bones and his crew take pride in offering our customers nothing but the best. Years of experience, stacks of technical notes and test and evaluation sheets helps Bones and his team do just that. There are a lot of suspension companies around, but if you want it done the right way, if quality and performance matter to you, then don't trust your suspension to anyone but Pro Circuit.

TRIPLE AIR CHAMBER WORKS SHOWA SUSPENSION

RETAILS FROM \$8,675.00

1. The right fork houses three air chambers: The inside chamber (high-pressure), the outside chamber (low-pressure) and the new Triple Air Chamber (balance-pressure). All three chambers can be adjusted by changing the pressure and oil volume to achieve the type of performance you require. Using air as a spring results in a much more calmer, more "connected-to-the-ground" feel.
2. Since the left fork has no spring, the cartridge, pistons and shims are a lot bigger, providing better front-end traction, bump absorption and a much more comfortable stroke with less feedback.
3. The forks still feature 49mm titanium-nitrate coated tubes that provide more durability and a smoother stroke.
4. Larger CNC machined Billet axle lugs for increased durability and performance.
5. Showa's new revolutionary Triple Air Chamber (TAC) is offered as an upgrade to customers who already have Pro Circuit's SFF Air Suspension only.
6. Giant 18mm shock shaft.
7. 50mm hard-anodized Kashima coated body has less friction and reduced heat build up.
8. The Works Showa Shock offers a more stable and controlled ride with slightly cooler temperatures.

The right fork houses the inside chamber, outer chamber and the TAC (balance chamber).

Gold coated tubes are also available for the SFF Air Works Showa Suspension.

The Triple Air Chamber (balance chamber) offers riders the ability to make adjustments externally.

The Triple Air Chamber fork is truly a state of the art suspension component.

TRIPLE CLAMP KIT

RETAILS FROM \$699.95

- Works Showa Forks require the use of Pro Circuit Triple Clamps and are available for most models.

AXLE & SPACERS

RETAILS FROM \$199.95

- 2012-2015 Kawasaki KX250F/450F requires new front axle & spacers on the Works Suspension A-Kit only (wide lug).

STAGE 1 (SHOCK/FORK OIL CHANGE & SERVICE)

STAGE 1 PACKAGE FROM \$235.00*

- Your shock and forks are completely disassembled for cleaning and inspection of all internal parts. Replacement of worn parts if required** and complete reassembly using PC-01 and PC-02 suspension fluids. New springs will be installed if needed and all clickers and race sag will be pre-set to your riding weight and our recommended settings.

SUSPENSION FLUIDS PC-01 & PC-02

RETAILS (EACH) FROM \$19.95

- PC-01 & PC-02 Suspension Fluids withstand the rigorous demands of motocross and off-road racing.

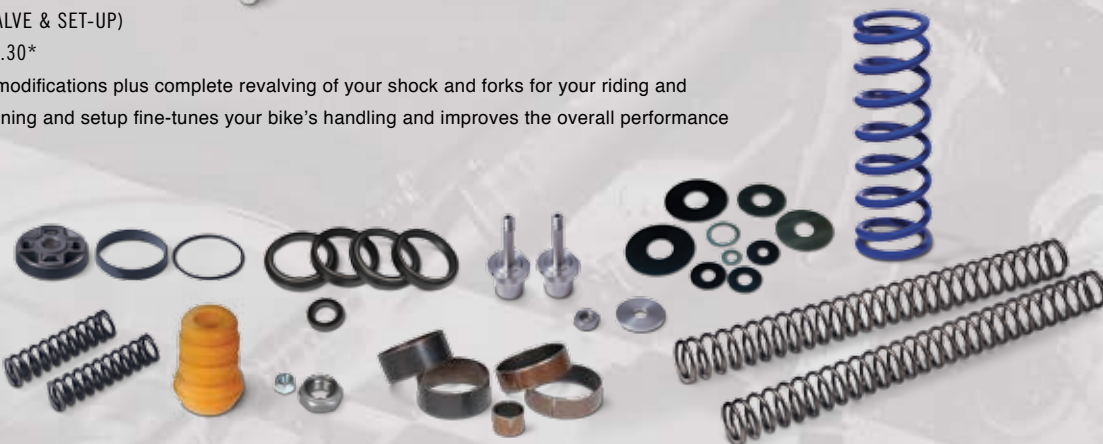

Having problems with your suspension setup? Contact Pro Circuit's Suspension Department at 951.738.8050.

STAGE 2 (SHOCK/FORK REVALVE & SET-UP)

STAGE 2 PACKAGE FROM \$690.30*

- Includes all of the stage 1 modifications plus complete revalving of your shock and forks for your riding and ability level. This custom tuning and setup fine-tunes your bike's handling and improves the overall performance of your suspension.

STAGE 3 (SHOCK/FORK REVALVE & SET-UP)

STAGE 3 PACKAGE FROM \$1,164.05*

- Includes all of the stage 1 and 2 modifications plus the option to install our works parts like: National Spring Tubes, Supercross Spring Seats, Works Bladder Caps, Works Shock Anodizing Kit and more. This modification is our top-of-the-line suspension setup and will benefit riders of any ability level.

*Springs/wear items not included. Parts pricing may vary. **Parts required may vary depending on condition of internal parts upon inspection.

SUSPENSION MODIFICATIONS

WORKS SUSPENSION MINI KITS

SUSPENSION PARTS & ACCESSORIES

TRIPLE CLAMP KIT

RETAILS FROM \$699.95

- The Triple Clamp Kit includes a clear anodized top and bottom clamp with a black reversible bar mount that fits 1 1/8" handlebars only. Also available for the Kawasaki Supermini.

LINKAGE ARMS

RETAILS FROM \$224.95

- Linkage Arms are designed to stiffen up the initial linkage curve and improve the geometry of the chassis, making the bike much more stable.

KX65/85/100 LINKAGE SYSTEM

RETAILS FROM \$324.95

- The KX65/85/100 Linkage System improves handling, stability and includes all of the required bearings and seals.

NATIONAL SPRING TUBES

RETAILS FROM \$289.95

- National Spring Tubes allow the oil in the forks to flow smoother and with more control. Available for most models of bikes.

SFF Fork Spring

SHOCK & FORK REPLACEMENT SPRINGS

- **SHOCK/FORK SPRINGS** RETAILS FROM \$129.95
- **SFF FORK SPRING** RETAILS FROM \$64.95
- Replacement shock and fork springs are available for most Showa, KYB and WP equipped models.

KX85/100

KX65

PULL RODS KAWASAKI MINI BIKES

- **KX65 PULL RODS** RETAILS FROM \$49.95
- **KX85/100 PULL RODS** RETAILS FROM \$104.95
- We offer two different Pull Rods for the KX85/100, one that raises the chassis and one that lowers it. KX65 Pull Rods will raise the chassis.

SPRING SEATS SUPERCROSS

RETAILS FROM \$119.95

- Designed specifically for Supercross and offers increased oil flow control to slow down the stroke of your forks. Available for most dirt bikes.

KTM SUSPENSION UPGRADES

RETAILS FROM \$89.95

- Available for most KTM models are Pro Circuit's Reservoir, Bladder, Bladder Cap, Shock Piston and National Spring Tubes.

WORKS ANODIZED SHOCK KIT

RETAILS FROM \$124.95

- Pro Circuit fabricates these Works Shock Kits for most Showa, KYB and WP shocks. Anodized for surface protection, durability and appearance.

FORK CAP ADJUSTERS

RETAILS FROM \$19.95

- Fork Cap Adjusters allow you to easily adjust compression and pre-load without having to remove your handlebars.

STEERING STABILIZER MODS

LABOR COST FROM \$99.95

- Valving modifications are available for better stability in corners for MX, SX and X-model off-road valving.

WORKS SHOCK PISTON KIT

RETAILS FROM \$89.95

- Improves shock control, traction, bottoming resistance and eliminates the possibility of hydro-lock. Includes shock piston, band and o-ring.

PUMP/DIGITAL GAUGE KIT SFF AIR FORKS

RETAILS FROM \$219.95

- Our Pump/Digital Gauge Kit for Air Forks is a must have for any rider using the Pneumatic Spring Forks (PSF). The pump provides accurate pressure, which is a crucial element in the setup of your suspension. Available for new CRF450R and KX450F models.

EXTENSIONS SFF AIR FORKS

RETAILS (EACH) FROM \$29.95

- This extension is useful for when you have bigger bars, or your bars are pushed forward and you want the air pump to be away from cables and your number plate. Can be used with most normal air pumps or gauges. Available for new CRF450R and KX450F models.

WORKS BLADDER CAP KIT

RETAILS (EACH) FROM \$74.95

- Our Works Bladder Cap Kit will reduce shock fade by increasing nitrogen volume. Includes bladder, cap and air valve. Color and shape vary depending on bike. Available for most off-road models.

PC-03 & PC-04 GREASE & LUBE

RETAILS (EACH) FROM \$9.95

- PC-03 Seal and O-ring Grease should be used on any seal or o-ring during assembly. PC-04 Assembly Lube is an all-purpose grease which provides greater film strength compared to normal greases.

ACCESSORIES

If personalization is key, then our array of accessories for most makes and models will get you excited to put your own spin on the appearance of your motorcycle. Our accessories go a step further by offering, not only something that looks great, but also offers benefits in the way your bike runs and handles. Whether it's our custom graphic kits manufactured by N-style, hard parts like clutch levers, footpegs and axle blocks, to our heat shields that reduce operating temperatures for better performance, each accessory offers something that a stock item cannot.

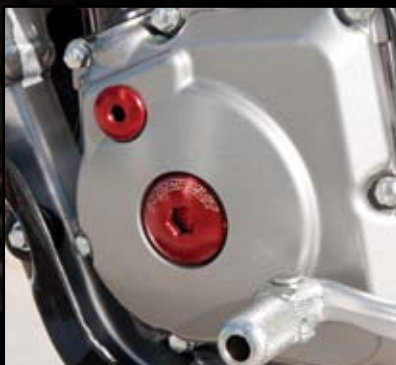

We don't stop at bike accessories, either. We also offer items like umbrellas, pit rugs, sticker sheets, back packs and gear bags that make for perfect gift items for any racer. We have just about anything a true motorcycle enthusiast could ever want or need. We take great pride in making quality-handcrafted products that really do make a difference, because we believe you deserve the best.

TYLER
BOWERS

JAKE
WEIMER

QUICK ADJUST CLUTCH PERCH

RETAILS FROM \$63.80

- This perch is made of Billet aluminum and features an on-the-fly adjuster. Four-stroke model shown, but two-stroke models are also available.

CLUTCH PERCH REBUILD KIT

• KIT

RETAILS FROM \$34.95

• GRAY CLUTCH PERCH BOOT

RETAILS FROM \$2.00

- The Clutch Perch Rebuild Kit includes everything you need for a fast and easy rebuild of your Quick Adjust Clutch Perch.

THROTTLE TUBES TWO-STROKE & FOUR-STROKE

RETAILS (EACH) FROM \$59.95

- Throttle Tubes are CNC machined out of aluminum and Teflon coated on the inside to reduce friction which gives you a smoother twist of the throttle. Available for most two-stroke and four-stroke models.

LEVERS BRAKE & CLUTCH

RETAILS (EACH) FROM \$19.95

- Our Brake & Clutch Levers are made from forged 6061-T6 aluminum for strength and durability. These levers are designed to fit the stock perches and exceed OEM specifications.

ARC COMPOSITE LEVERS BRAKE & CLUTCH

RETAILS (EACH) FROM \$69.99

- ARC Levers are adjustable for different hand sizes and are designed to flex during impact. The top choice for privateers and factory professionals.

BRAKE HOSE CLAMP

RETAILS FROM \$44.95

- The Brake Hose Clamp firmly holds the brake line in place, and even with its compact design, this clamp is more durable than stock.

FUEL MIXTURE SCREW

RETAILS FROM \$29.95

- The Fuel Mixture Screw is designed to make quick and easy adjustments. The knob is easy to grab and adjust and includes o-ring.

BANJO BOLTS

RETAILS FROM \$49.95

- Banjo Bolts can be fastened onto the front and rear brake master cylinders, and front and rear brake calipers. Pre-drilled for safety wire. Sold in pairs.

CROSSBAR PADS MINI & STANDARD

RETAILS (EACH) FROM \$19.95

- The Mini & Standard Crossbar Pads feature high-density foam and a black vinyl wrap with the Pro Circuit logo in a metallic silver.

CROSSBAR PAD FATBAR

RETAILS FROM \$19.95

- The Fatbar Crossbar Pad features high-density foam and a black vinyl wrap with the Pro Circuit logo in a metallic silver.

LAUNCH CONTROL DEVICE

RETAILS FROM \$109.95

- Designed to enhance traction during starts and prevent wheelies. Available for most Honda, Husqvarna, Kawasaki, KTM, Suzuki and Yamaha models.

REAR BRAKE CLEVIS

RETAILS FROM \$54.95

- Constructed of Billet aluminum and is designed to eliminate the free play on the stock brake pedal setup.

RAPTOR TITANIUM FOOTPEGS

RETAILS FROM \$349.95

- Raptor Titanium Footpegs create the perfect grip to help enhance your racing performance.

CARBON FIBER CHAIN GUIDE

RETAILS FROM \$299.95

- The carbon fiber bracket extends farther towards the rear wheel proving a precise feed of the chain to the rear sprocket. Block insert included.

AXLE BLOCKS

RETAILS (EACH) FROM \$59.95

- Lightweight Billet aluminum and allows precise wheel alignment. Honda models are anodized red, while all others are "works brown".

SPOKE WRENCH & NIPPLE JAWS

RETAILS FROM \$16.95

RETAILS (EACH) FROM \$14.95

- HANDLE
- NIPPLE JAWS
- Nipple jaw sizes available: 5.1, 5.7, 6.0, 6.1, 6.3, 6.4, 6.6, 6.7 and 6.9

BRAKE SNAKE KIT

RETAILS FROM \$16.95

- The Brake Snake Kit is easy to install and cheap when compared to the price of a new brake pedal. Includes all necessary hardware.

TITANIUM FLOW-THRU FOOTPEGS

RETAILS FROM \$239.95

- Designed to reduce mud from packing in the footpegs, giving you better foot traction and control.

SHIFT LEVER

RETAILS FROM \$99.95

- Our Shift Lever is CNC machined from Billet 6061-T6 aluminum. Designed to prevent dirt from clogging and interfering with the shift lever functionality.

HOT START CONNECTOR

RETAILS FROM \$29.95

- The CNC machined, aluminum fitment eliminates the danger of stripping this important carburetor part. Available for all Keihin FCR carburetors.

ACCESSORIES

CLUTCH COVERS

RETAILS FROM \$169.95

- Clutch covers are CNC machined from T-6 Billet aircraft-grade aluminum to improve durability and heat dissipation, which improves performance.

KX80/85/100

KX250F

BILLET IGNITION COVERS

RETAILS (EACH) FROM \$199.95

- Our CNC machined, hard anodized, Billet Ignition Covers increase strength, rigidity and improves wear resistance. Available for KX models.

ENGINE PLUG KIT

RETAILS FROM \$69.95

- Each piece is CNC machined from aircraft-grade aluminum, anodized red and polished. Some kits may come with less, or more pieces than shown.

COUNTER SHAFT COVER KX80/85/100

RETAILS FROM \$99.95

- This cover bolts over the aluminum case saver to add a "factory look", and to offer additional protection. For the KX80/85/100 Billet Ignition Cover.

WATER PUMP KIT

RETAILS FROM \$189.95

- The Water Pump Kit is CNC machined from Billet aluminum, color anodized and is designed to increase the performance of your cooling system.

THERMOSTRIPS

RETAILS FROM \$19.95

- Monitor the running temperature of your engine, shock or radiators with ease. Heat range measures from 149-248 degrees. Three strips per pack.

PIT BOARDS

RETAILS (EACH) FROM \$44.95

- Our Pit Boards are stylish, durable, and make it easy to relay information to your rider during his/her moto. Dry-erase marker included.

PIT RUG

RETAILS FROM \$189.95

- Our Pit Rug is designed to give your pit setup the "factory look". It absorbs water and oils, is fire resistant and washable so it's easy to keep clean.

HEAT SHIELDS

- SILVER REFLECTIVE FILM** RETAILS FROM \$49.95
- GOLD REFLECTIVE FILM** RETAILS FROM \$68.95
- Dirt bike engines produce a lot of heat and the gasoline in the tank can lose its combustibility because of it. Our Heat Shields self-adhere to the bottom of your bikes gas tank to reduce operating temperatures for better performance. Film measures 27" x 24" and requires some cutting to fit your gas tank.

MATRIX BIKE STAND

RETAILS FROM \$112.95

- Manufactured by Matrix Concepts, this stand is constructed from a blend of polycarbonate plastics and designed with anti-flex supports to help promote strength and eliminate rocking.

WORKS BIKE STANDS MINI & STANDARD

- MINI BIKE STAND** RETAILS FROM \$74.95
- STANDARD BIKE STAND** RETAILS FROM \$79.95
- SIDE PANELS** RETAILS FROM \$24.95
- Our Works Bike Stands feature a non-slip rubber top and are built from extruded aluminum for durability and lightweight. Side Panels feature high-strength 3M decals for rider and mechanic names.

CASUAL & TEAM APPAREL

We believe that you should look just as good off the track as you do on it. That is why we put forth an effort to provide our customers with quality items that will have them looking their very best no matter where they are at. Our tees and sweatshirts are screen printed with quality inks and our headwear continues with trendsetting designs and superior quality embroidery to help complete your look. Our line of casual apparel will definitely complete any motocrossers wardrobe.

Monster Energy/Pro Circuit/Kawasaki apparel is also available in several different style tees, sweatshirts and hats. This race team line offers fans the opportunity to look just like one of its crew members during race day, and to show your support for one of the winningest race teams on the Supercross and Motocross circuits. This line is offered exclusively through Pro Circuit or its authorized dealers.

TERMS & CONDITIONS

BUSINESS HOURS: Pro Circuit Products, Inc. is open from 9:00am to 6:00pm (PST) Monday through Friday. The service and suspension departments are open from 9:00am to 6:00pm (PST) Monday through Friday. The showroom is open to the public from 9:00am to 6:00pm (PST) Monday through Friday. Pro Circuit Products, Inc. is closed on weekends and all major holidays.

PRICES: All prices are subject to change without prior oral or written notice. All orders are invoiced at prices in effect at the time of the shipment.

CONTENTS: Pro Circuit Products, Inc. believes the contents and specifications of its catalog, website, ads and promotions are correct. We assume no liability for any errors in listings, specifications, part numbers, prices or model applications. We reserve the right to change specifications, product descriptions, product quality, pricing and application at any time without prior oral or written notice.

BACK ORDERS: Pro Circuit Products, Inc. will always try to avoid back orders. However if a back order situation does occur, Pro Circuit Products, Inc. will take your order and ship your product as soon as it is available.

SHIPPING: All orders are shipped via FedEx, UPS or US Postal Service (military addresses only). The standard shipping method is FedEx ground service. FedEx Express (3-day), air (2-day), overnight (1-day) and UPS services are also available at additional costs, and only when requested and approved by Pro Circuit Products, Inc. Pro Circuit Products, Inc. does not offer COD delivery for retail customers. If you require your order to be shipped via US Postal Service (military addresses only), there will be additional handling fees due to costs incurred by Pro Circuit Products, Inc. in delivering packages to the post office.

RETURNS: No returns will be accepted on unused products after 30 days of purchase date. Returns for warranty consideration must be approved by Pro Circuit Products, Inc. Prior to ANY return shipment, call Pro Circuit Products, Inc. for a return authorization number (RA#). New product must be in original packaging and in condition fit to sell as new. A copy of your original sales receipt must be included with the product being returned. Authorized returns are subject to a restocking fee of up to 20% of the original purchase price. All sales are final on discontinued and close out items.

LIABILITY: All products manufactured and/or distributed by Pro Circuit Products, Inc. are offered and designed for use with standard machines. Pro Circuit Products, Inc. makes no claims as to the products effectiveness on modified machines. Pro Circuit Products, Inc. is the sole determiner of abuse, misuse, installation errors and modifications. We assume no liability for any errors in listings, specifications, part numbers, prices or model applications. Pro Circuit Products, Inc. reserves the right to change specifications, product descriptions, product quality, pricing and model applications at any time without prior oral or written notice and without further obligation.

Adding new components to your motorcycle (especially to the engine, suspension or braking system) may radically alter the acceleration, deceleration, handling and braking characteristics of your motorcycle. Ensure that all parts are installed and properly torqued per the instructions supplied with the part or to the motorcycle manufacturer's original specifications. Test the motorcycle with the new part(s) on level ground, at low speed, without any other vehicles or obstacles nearby, to ensure that it is working properly. Periodically recheck, adjust or replace the parts as may be necessary depending upon the terrain, use, mileage and rider input. Consult the instructions supplied with the part, or the motorcycle manufacturer's original specifications for further details. The failure to properly install, maintain, or familiarize yourself with the new part's use, and proper operation, may result in damage to the motorcycle, and/or a loss of control, resulting in serious injury or death. Buyers assume all risk for any and all damage caused to themselves, a third party and/or property by virtue of failure of these products. By installing and/or using a Pro Circuit Products, Inc. product, you hereby accept and understand these stated terms and conditions.
